ARGUMENTS ARE MADE IN TRIAL OF BILLINGS

**Attorney for Defense Begins
Argument and Makes Reply
to Allegations of Prosecution
Discrediting All Testimony**

**CASE MAY GO TO
JURY LATE TODAY**

District Attorney Fickert, in
Urging Conviction, Says a
Verdict of Guilty Will Tell All
U. S. Patriotism No Crime

SAN FRANCISCO, Sept. 22.—Pic-
turing Warren K. Billings as the vic-
tim of a "frameup" on the part of the
district attorney and a private de-
tective, who sought not the per-
petrator of the bomb outrage of the
preparation of evidence to fasten the
crime on the defendant, Attorney Maxwell
McNutt made a plea for justice in his
argument in Superior Judge Dunne's
court this morning.

Bitterly he arraigned the prosecu-
tors and the police for being led from
the trail which might have brought to
light the real conspirators and
which caused the bodies of the men
and the woman whom it was desired
should bear the burden.

Quoting freely from the Scriptures
and from Shakespeare, McNutt sought
to prove his case by comparative
analysis and synthetic discussion of
the threats of testimony and arguments
rather than by declaratory discourse.

COURTROOM THROGGED

The courtroom, which has been
thronged throughout the trial, was
literally packed this morning. For
the first time spectators were allowed
in the gallery. About 500 persons
were turned away from the doors and
as many more were told at the en-
trance to the hall of justice that
there was no chance to find a seat.
At 10 o'clock the trial began. The
prosecution could be made as to
whether the case could go to the jury
tomorrow or Monday. McNutt de-
clared he would argue about an hour
and a half and then proceed to his
closing argument. Assistant District
Attorney Brennan, who will close, as-
serted that he might be anywhere
from two to four hours in making his
last admissions to the jury.

tical.

Voice Heard From Warring Country 'Little Sister' in L. A. Told of Fight

LOS ANGELES, Sept. 22.—
Queerer than a voice from the
great wastes, the words of Flight
Lieutenant Kirby today, lifting out
of the smoke rifts of the British
lines on the Somme and telling
his little sister in Hollywood what
a terrible thing was really was.

Dainty Miss Madge Kirby, in a
quiet bungalow, unseated a small
package bearing the British army
postal stamp, placed a record on a
graphophone and waited.

"Dear little sister," began the
voice from nearly half a world
away—and "sister" listened
breathlessly to the voice of her
own brother—"you're listening to
brother in the trenches near
Popieres. Does the record carry
over a ground where the
that you hear me? I wish you could
only take one little step into this
world and see the things we see.
Father was in the thick of the
fighting, but he's safe and
sound as a whistle."

The voice went on in a reassur-
ing way, telling "little sister" how
he downed a German warplane
over a ground where the
British and French advanced.

Miss Kirby answered the flight
lieutenant's recounting by talking
into a blank record herself and
writing to her brother "some-
where in France."

NEW YORK MAYOR READY TO CALL GUARD IN STRIKE

**General Walk-out in Support
of Traction Employees
Seems Certain.**

NEW YORK, Sept. 22.—Repeated
threats of a great general strike to
help the striking street car employ-
ees caused all branches of the city gov-
ernment to prepare today for outbreaks
of mob violence. Mayor Mitchell's
notice that he stood ready to invoke
all the civil and militia power at his
command to "suppress disorder" was
followed by a declaration of a
warning that persons convicted of
agitating in strike riots would receive
heavier punishment.

The police department told the
traction companies that they could
not guarantee night service as soon as
the very ready under assurance of
adequate protection. This far, \$700,
policemen have been disposed of at
strategic points. This police guard in-
cludes a patrol of fifty automobiles
and 100 motor cyclists along the most
exposed car lines.

Union leaders representing about
700,000 workers will meet this after-
noon to decide whether to issue a call
for a general strike. Some of the
largest employers in the city have
ordered would begin Monday or
Tuesday. The call, they said, would
be based on the ground that organ-
ized wage-earners should not ride in
cars manned by strikebreakers.

CAKES NOT MOISTENED

Cross-town surface lines where cars
run at night were not molested. The
lines were under heavy police guard.
The early morning bombardment of
elevated trains were resumed,
however, strike sympathizers lurking
on roof tops throwing bricks and
bottles which shattered car windows.
Several passengers were injured in
sixteen attacks reported by the
police.

Characterizing a sympathetic strike
as grossly violative of the law,
Mayor Mitchell has warned the labor
leaders that he will use all of the
"military and civil power vested in
the mayor" to cope with such a
situation.

Packed S. S. Campbell Gompers, labor
leader stoutly maintain that they will
stick by their fight for the right to
organize, and claim that the struggle
is on trade unionism and is vital to
the welfare of all organized labor.

SUGGEST BOYCOTT

While the consideration of a gen-
eral strike was under way, it was
learned that many labor leaders sug-
gest a general boycott on street rail-
ways as a more effective weapon. The
plan of these leaders is to order all
union men to stay away from their
work until "proper transportation" is
provided. They maintain that this will
be a more peaceful and effective
method of settling the difficulties
than a general strike.

Meanwhile normal operations of
the subway and elevated lines has
been maintained. Intermittent disor-
ders in various parts of the city kept
the police busy during the night and
early morning, but no serious disor-
ders were reported. Partial night
service on cross-town lines was at-
tempted for the first time, with heavy
police details.

Undaunted by the warning of the
mayor, Hugh Payne, state organizer
of the American Federation of Labor,
said today:

"Trade unionists will not surrender
their rights to organize in this city."
The plan announced yesterday by
M. J. Regan of the state board of
arbitration and mediation to enforce
arbitration was temporarily abandoned
today and the hearings, which he an-
nounced would be held Monday, have
been postponed. The question will be
taken up, it was announced, at a meet-
ing of the state industrial commission
Tuesday.

Conferences to Precede Reichstag Session

BERLIN, Sept. 22.—The Reichstag,
which is to be reopened Thursday Sep-
tember 28, will be preceded in the course
of the next few days by confidential
conferences between Gottlieb von Ja-
gow, the minister of foreign affairs, and
other important party leaders.

The Bundestag yesterday extended by
one year the term of the Reichstag,
which should have concluded its ses-
sion in January, 1917. The legislative
period of the Reich of Alsace-Lorraine was
similarly extended.

'WET' PASTOR WRONG, SAY MINISTERS

**Churchmen Declare Clemenson
Should Be Allowed to Drop
Work if Prohibition Issue Is
Menace to His Efficiency**

**Deny Politics Have Entered
Churches and Suggest Man
From Benicia Is Under Rule
of Synod Until He Is Relieved**

"This is just the talk of a man
with a sore ear."
"He'd howl enough if his house
were robbed and there were no
law against robbery. He'd in-
sist on protection then."
"He is a Presbyterian minister.
He is amenable to their rules,
and went in with his eyes open.
He knew the rules. He hap-
pened to step on a live wire and
got hurt."—Rev. Francis Van
Horn.

Mr. Clemenson is mistaken. He
is really not a bad man at all. I
think he has done wisely to leave
the ministry if he cannot agree
with it, for he is out of agreement
with the overwhelming majority
of the churchmen making it im-
barrassing for them and himself."
—Rev. George Eldredge.

"Just say 'Excuse me.' It is all
a personal matter between Mr.
Clemenson and his church."—
Rev. M. J. Jackson.

(Oakland ministers' opinions on
the controversy over Rev. New-
ton E. Clemenson's quitting the
church with his protest against
prohibition was assailed.)

Oakland ministers of all denomina-
tions today rallied to the defense
of the church, which according to
the sensational charges of Rev. Newton
E. Clemenson of Benicia has become
ridiculous in the eyes of the public,
making the prohibition dogma a
matter of orthodoxy. Clemenson figured
recently in a dispute with the Oakland
Presbytery when he gave a series of
anti-prohibition lectures against the
church.

The Oakland ministers deny that
politics are "turning the churches into
political convention halls for the cam-
paigns of enmity and hate," as he de-
clares.

They deny that politics have no
place in the church, holding that
every political issue is, or becomes,
a moral issue. Rev. George Eldredge
said that Clemenson's protest against
prohibition is, save in a very remote
sense, a political issue at all. "It has
never been an issue of any party," he
declares.

REFERS TO HAT

Rev. Francis J. Van Horn opines
simply that Clemenson is "talking
through his hat."

The controversy between Clemenson
and the Presbyterian Church, in which
he has been a pastor for thirty-five
years, came to a head today with the
announcement that he had filed a let-
ter with the board of Christian
church, in quitting the ministry. He
has retained an attorney to represent
him before the California Synod and
the Benicia Presbytery. He charges
that the Synod has falsified records
concerning trouble he had two years
ago with the Oakland Presbytery,
when he gave eighteen lectures for
the California Grape Protective As-
sociation throughout the city. At
this time the Oakland organization
protested vigorously, as he was being
advised as a "Presbyterian Minister
Against Prohibition."

Ministers declare that Clemenson
is confusing issues in his charges against
the church. Rev. J. J. Jackson declares
that he will not discuss it, as it appears
to be a personal row. "Just say 'Ex-
cuse me,'" he said, "and you can stop
this thing. It is a personal matter, a
defined issue in the statements of Mr.
Clemenson above the personal one."

"The man is mistaken," says Dr. Eld-
redge, a Presbyterian. "I know him well.
He is not really a bad man. I think he
has done wisely to quit the church. It is
point of view does not agree with the
overwhelming majority of the church.
Otherwise it is unpleasant for all con-
cerned. As to political issues, there are
none that are not or do not become moral
ones."

"This is all the talk of a man with a
sore ear," commented Rev. Francis J.
Van Horn, who refused to take the mat-
ter seriously. "The church will live
through it. Van Horn was pressed for
laugh at the matter, but when pressed for
an interview declared that the pastor was

Transport Is Sunk by German Torpedo

BERLIN, via wireless to Sayville,
L. I., Sept. 22.—A German submarine
sank an enemy transport, completely
filled with troops, in the Mediter-
ranean on September 17, it was of-
ficially announced today. The trans-
port sank within 45 seconds.

The Berlin statement made no
mention of the fate of the soldiers
aboard the transport. Accepting the
statement that the transport went
down in 45 seconds as true, it appears
probable that few, if any, persons
were rescued unless other vessels
were in the immediate vicinity.

20-Year-Old Soldier Shot at Texas Presidio

BLOOMINGTON, Ind., Sept. 22.—John
Steinhagen, aged 20, a private in F troop,
Sixth cavalry, was shot and killed at
Presidio, Texas, according to a telegram
received by the young man's mother
here today. The telegram gave no de-
tails of the shooting.

American Ambulances Will Go to Balkans

PARIS, Sept. 22.—The American
ambulance field service is being reor-
ganized to form a section of am-
bulances to serve with the French
army in the Balkans. The section
will include thirty ambulances of the
latest model.

BATTLE TIDE TURNS; KAISER VICTORIOUS

**Bulgarians Said to Be Burning
Villages and Ravaging Land
As They Flee Before Blows
of Russians in the Dobrudja**

**Allies Encouraged by Gains on
Two Fronts, Renew Their
Demand for Settlement of
Affairs and Intent Decision**

BERLIN, Sept. 22.—The tide of
the great battle in the Rumanian province
of Dobrudja has again turned, this
time in favor of the central powers,
according to Berlin today. Field Mar-
shal Von Mackensen has succeeded in
breaking the Rumanian and Russian
resistance, the German war office re-
ports, executing an encircling move-
ment which compelled the entente
forces to retreat in disorder.

It was only last night that an of-
ficial announcement from Bucharest
declared that the battle which had
been in progress for six days had
ended Wednesday with the defeat of
the Germans, the Germans and Turks,
who were retreating southward, burning
villages as they went.

If the German victory turns out to
be decisive one the situation prom-
ises to develop seriously for the Ru-
manians and Russians, who have been
fighting to protect the railroad run-
ning from Constantza, on the Black
Sea, to Tchernavoda, on the Danube.
The battle was fought not more than
twenty miles south of the railroad
and its loss would mean the cutting
of the convenient water route of com-
munication between Russia and Ru-
mania by way of Constantza and Tcher-
navoda, in addition to the route to
interior Rumania over the only
bridge spanning the Danube along the
entire Dobrudja front.

SITUATION SERIOUS

In the fighting in the Carpathians
the Russian position has been de-
clared as serious. The Russian army
of Smolensk, which already had
changed hands several times. Else-
where along this rugged front the
Russians have been attacking heavily,
but according to Berlin were beaten
off.

BERLIN, Sept. 22.—The British
cable service today reported that
Field Marshal von Mackensen has
driven back the Russians and Ru-
manians from the Dobrudja in disor-
der, the war office announced to-
day. The victory was gained by
means of an encircling counter-
attack.

CAPTURE BIG TOWN

An earlier official statement re-
ported the Bulgarians burning villages
and ravaging the country as they fell
back. The official statement also re-
ported the capture of Szekely Udvare-
ny, a town of about 8000 inhabi-
tants, for several miles inside the Trans-
ylvanian frontier.

The defeat of Field Marshal Mack-
ensen in the Dobrudja invasion and
the check administered to the
Austro-Germans on the northwestern
frontier of Rumania has caused a re-
newal of the demand here for a set-
tlement of affairs at Athens.

CABINET UNFAVORABLE

It is no longer any secret that the
new Greek cabinet is not regarded as
favorable to the allies. English cor-
respondents at Athens cabled today
that it was highly improbable that
the cabinet would be able to enter into
cordial relations with the new min-
istry.

Reports have reached here that the
revolts which have broken out in iso-
lated parts of Greece may mean the
beginning of a real revolution headed
by Premier Venizelos and over-
throw King Constantine and bring
Greece into the war.

PARIS, Sept. 22.—The Bulgarians
have sustained a heavy defeat at
hands of the Serbs on the Saborosko,
it was officially announced today,
and also have been pushed back by the
French.

Pursuing their advance in the
Brega river sector, the Serbs have
reached Verban, north of Florina,
after repulsing the Bulgarian attacks.

WARSHIP SINKS

French troops cleared the entire
region northwest of Armenako of the
Bulgarians and moved, after
heavy fighting, to the heights domi-
nating the Florina-Poplin road.

Wilhelm Arrives on Kovel Front

COPENHAGEN, Sept. 22.—Kaiser
Wilhelm arrived on the Kovel front
today, according to a dispatch re-
ceived here today. It is believed that
Von Hindenburg is about to inau-
gurate a drive against the Russians.

**Steel Makes Record
in New York Exchange**

NEW YORK, Sept. 22.—U. S. Steel
common sold at \$1.14, a new high re-
cord, five minutes before the close of the
stock exchange this afternoon.

TWO BRITISH SUBJECTS KILLED BY VILLA AT HOMES IN OIL FIELDS EXECUTIONS FOLLOW IN WAKE OF NEW RAID

Chihuahua "Victory" Lie? Bell's Report Contradicted

CHIHUAHUA CITY, Sept. 22.—
Commenting on the report in Amer-
ican newspapers attributed to Briga-
dier-General George Bell Jr., at El
Paso, Tex., of the Villa raid upon this
city last Saturday, General Jacinto
Trevino, commanding the Carranza
army of the north, today issued a
statement to the Associated Press, in
which he described it as a "tissue of
lies and falsehoods."

"I am at a loss to know where
General Bell obtained such bad in-
formation," he continued. "The Vil-
listas carried absolutely nothing away
from them, except some of the prison-
ers from the penitentiary, many of
whom have since returned here. They
captured neither ammunition, cannon
or anything else."

"Our artillery drove the Villistas
out of the place which they had taken
and pursued them in their hasty re-
treat with shells, leaving them no
time to carry anything away as they
left galloping in small groups through
the narrow streets of the town."

TREVINO DENIES DEFECTION

General Trevino asserted that every
unit of his force was co-ordinated;
that all prisoners examined by him
agreed that Villa's band did not num-
ber more than 600; that there were
no defections from the Carranza army,
and that all of the automobiles in the
city are accounted for, none being car-
ried away by the outlaws. Govern-
ment artillery fire was only ceased,
he said, when the bandits had been
driven out and the seemed danger of
hitting pursuing forces under
Generals Ramos and Merriero.

WASHINGTON, Sept. 22.—Secre-
tary Baker let it be known today that
the war department was not disposed
to accept as accurate the report of
Villa's raid on Chihuahua City last
Saturday, transmitted by Brigadier-
General Bell yesterday on the strength
of information that had reached him
in El Paso.

"We have no military information as
to renewed Villista activities,"
Baker said, indicating that it was
assumed that General Bell's account
was based upon rumors and reports
current in border towns and not facts
obtained through army channels in
Mexico. He declined to discuss in any
way what effect the reappearance of
Villa, if it were confirmed, might have
on the movements of American troops
in Mexico.

WAR DEPARTMENT SILENT

So far as is known the war depart-
ment has made no effort to learn from
General Bell the source of his in-
formation. General Funston is ex-
pected to transmit promptly without
additional instructions any authentic
information of the activities of the bandits
upon which any change in plan in-
volving General Pershing's expedition
might be founded.

NEW YORK, Sept. 22.—In a tele-
gram today to Juan T. Burns, Mexi-
can consul-general in New York, General
Trevino, after reiterating his state-
ments that his forces defeated the
Villa invaders at Chihuahua City,
said:

"This foolish shedding of blood was
with the intention of creating diffi-
culties for the conferees of the com-
mission at New London, at the
machinations of American and Mex-
ican political interests. They them-
selves are now satisfied that they
have failed."

SAN ANTONIO, Tex., Sept. 22.—
General Funston today said he placed
full credence in the report of Villa's
raid.

attack on Chihuahua City sent to the
war department by Brigadier-General
George Bell Jr. and given out for pub-
lication yesterday.

He said that he had been informed
that General Bell's information was
gained from reliable persons who had
come to El Paso directly from Chi-
huahua City immediately after the
battle.

"General Bell's report was made up
from interviews had by officers of
the army intelligence department with
persons who fled from Chihuahua
City and was not based on border
rumors, I understand," said General
Funston. "Of course, the army had
no representative in Chihuahua and
could not get first-hand details."

There are now about 1000 facts
troops in Chihuahua City, according
to General Pershing. A large per-
centage of these are reinforcements
rushed in from the south since the
battle, indicating that Trevino's force
prior to the attack was comparatively
weak.

REPORT FROM INTERVIEWS

General Funston also explained an
announcement by Dr. J. B. Gambrell,
corresponding secretary of the Bapt-
ist general convention of Texas at
Dallas last night, quoting General
Funston as ordering that Baptist
preachers might preach to the sol-
diers providing that they did not tell
them they were "lost."

General Funston said he had no
desire to dictate to ministers what
they should preach to army men, but
he objected to revivals being held in
the camps, and found particularly ob-
noxious any supposition that army
men needed to be special objects for
evangelization.

"We have as fine a lot of men as
any other class of men in the coun-
try," he said. "I don't believe they
should be considered as being 'lost.'"

EL PASO, Sept. 22.—Brigadier-
General George Bell Jr., commanding
the El Paso military district, said to-
day that his information concerning
Villa's Hidalgo day attack upon Chi-
huahua City was obtained from "sev-
eral most reliable sources." While he
did not believe the report, he said he
nevertheless believed that he had every
reason to believe that his reports to
the war department were founded on
fact and not based on border rumors.
General Bell refused to comment on
General Trevino's statement.

INFORMATION "RELIABLE"

However, General Bell said he had
received additional information tend-
ing to support his original report. The
new information indicated, he as-
serted, that not only did the Villistas
seize a quantity of arms and ammuni-
tion, but also valuable silver, bullion
held in the federal palace, ostensibly
to determine ownership. General Bell
pointed out that in none of his re-
ports did he say that Villa had been
joined by from 1000 to 1500 soldiers
of the Carranza garrison, but he had
said that he was joined by approxi-
mately that number of men, many of
them civilian residents of Chihuahua
City.

Private letters received here today
said that orders had been issued in
Chihuahua City prohibiting the vil-
listas from going north toward the border
while large troop movements from the
city north to Laguna are in progress.

A leading Mexican resident of El
Paso received today a letter from his
son, who is in Chihuahua City, in
which he said that the revolutionary move-
ment in that district is growing rap-
idly and is augmented by numerous
desertions from the Carranza gar-
rison.

GERMANS LOSE HEAVILY NORTH OF SOMME LINE

LONDON, Sept. 22.—A German
seaplane today flew over Dover
and dropped three bombs. The
missiles caused no casualties, ac-
cording to an official announce-
ment. The hostile seaplane was
chased away by anti-aircraft
guns.

LONDON, Sept. 22.—British troops
advanced on a mile front south of
the Ancre last night, capturing two
lines of German trenches between
Piers and Martinpuich; General Haig
reported this afternoon.

The gain thrust the British line for-
ward in the direction of hill 132 and
drove the Germans still further back
toward the Le Sars-Guerdecourt
newspaper, their next strong line of
defense before Bapaume. The Brit-
ish line is now approximately directly
north of Piers and Martinpuich, Gen-
eral Haig reported.

BACCUS SHARPENS AXE FOR FALL OF FRICKSTAD'S HEAD

Street Commissioner William J.
Baccus took steps today for the aboli-
tion of the office held by Walter N.
Frickstad, deputy superintendent of
streets, by introducing in council an
ordinance abolishing that office
with that of deputy city engineer.
The measure was given first and sec-
ond reading and will be adopted in a
week.

"Does this ordinance provide for the
changes suggested by the Civil Ser-
vice Commission?" Commissioner W. H.
Edwards asked.

"Yes," Baccus answered, "this or-
dinance embodies some of the com-
mission's recommendations."

James D. Jones, president of the Civil
Service Commission, and Baccus, who
agrees as to this, Jones declares that
the elimination of Frickstad was not recom-
mended by the board, but that the dis-
charge of four men, members of the in-
spection division of the street depart-
ment, had been suggested. It was further
suggested, Jones says, that one man be
placed in charge of the inspection de-
partment.

Frickstad is now head of that divi-
sion, with Charles Ott and Harry Tre-
selt as his assistants.

Frickstad is to be discharged because
Baccus considers him a "trouble maker."
The discharge of Frickstad was not
recommended by the board, but that the
discharge of four men, members of the in-
spection division of the street depart-
ment, had been suggested. It was further
suggested, Jones says, that one man be
placed in charge of the inspection de-
partment.

The matter of his discharge to the Civil
Service Commission, as the adoption of
this ordinance will abolish the office
which he now holds. Baccus says that
there will be no others dismissed in his
department.

Melvin Auerbach, deputy city engineer,
will hold the consolidated positions.

attack on Chihuahua City sent to the
war department by Brigadier-General
George Bell Jr. and given out for pub-
lication yesterday.

He said that he had been informed
that General Bell's information was
gained from reliable persons who had
come to El Paso directly from Chi-
huahua City immediately after the
battle.

"General Bell's report was made up
from interviews had by officers of
the army intelligence department with
persons who fled from Chihuahua
City and was not based on border
rumors, I understand," said General
Funston. "Of course, the army had
no representative in Chihuahua and
could not get first-hand details."

There are now about 1000 facts
troops in Chihuahua City, according
to General Pershing. A large per-
centage of these are reinforcements
rushed in from the south since the
battle, indicating that Trevino's force
prior to the attack was comparatively
weak.

38 Men Are Victims of Latest Attack by Gang at Aguila Oil Camp When the Tuxpam Raiders Sweep De Factos

**CHIHUAHUA IN
FEAR OF ATTACK**

**General Trevino in Council
With War Chiefs on the Best
Plan for Retaliation While
Americans Offer Affidavits**

GALVESTON, Tex., Sept. 22.—
Two British subjects were taken
from their homes and shot and
thirty-six of a party of thirty-eight
Carranza soldiers were killed in a
raid September 16 on an Aguila oil
camp near Tuxpam, by bandits in-
cluding themselves Villistas, according
to a report brought here today by
the steamer Topila from Tampico.

The Carranza force put up a hard
fight, it was said, but were outnum-
bered and overpowered. Two of the
Carranza officers took refuge in the
house of the Englishmen. They were
discovered and put to death and the
Englishmen killed for having given
them shelter, the report adds.

EL PASO, Sept. 22.—Although
Pancho Villa is only twenty miles
outside of Chihuahua City, accord-
ing to an official announcement by
Carranza military authorities at
Tucson, "vigorous pursuit" of the
bandit and his followers has not
been taken up since Colonel Ramos
abandoned it. General Trevino is
still conferring with his sub-chiefs
before risking a chase of the out-
laws.

Many refugees, native and Amer-
ican, who fled from Chihuahua City
before the fighting started Saturday,
are anxious to make affidavit to
assure the administration at Wash-
ington that the raid was engineered
by Villa and was entirely successful.

Accused of planning to join Villa,
twenty-two natives were taken from
a train during the night outside of
Juarez and brought back to the latter
city. General Gonzales had received
a report that all had announced their
intention of joining the bandits.

CHIHUAHUA CITY, Sept. 22.—
Carranza troops are pursuing the
bandits which attacked
Chihuahua City last Saturday south-
ward, according to official announce-
ment here today. The Villistas are
reported passing along this road to
Jimenez, southwest of Chihuahua
City. Rancheros arriving report
Villa's forces were disappointed by
failure to obtain loot promised by
Villa when he captured the city.

Reports from the district through
which the band is passing, it was
given out, say Villa has lost consid-
erable prestige because of failure of
the attack. Prisoners taken by Villa
who have returned say Villa's plan
was to surround the palace during
the Independence day celebration,
kill General Jacinto Trevino, com-
mandant at Chihuahua City, and his
staff, and to disorganize the gar-
rison.

Villa last was reported in the
Sierra de La Silla district, near Santa
Yzabel.

BROWNSVILLE, Tex., Sept. 22.—
Reports reaching here, but impossible
of verification, stated that a band of
bandits under Alberto Carrera Torres
has captured Victoria, capital of the

trict, according to the same advice.

Desperate Fighting in Carpathians

BERLIN, Sept. 22.—Desperate
fighting between the Austro-Germans
and the Russians in the Carpathian
mountains continues. The summit of
Smolensk, which has changed hands
several times, has again been cap-
tured from the Germans by the Rus-
sians, says today's German official
statement. Further Russian attacks
on Ebnaludova were repulsed.

FIRE HIDES MURDER AND ARSON PLOT

Police Find One of Two Bodies
in San Jose Ruins Mutilated
by Heavy Blow; Young Girl
Discovers Remains of Father

Sluths of Theory That Firebug
Was Caught in Act of Burn-
ing Home, Death Struggle
Ensuing As Flames Spread

SAN JOSE, Sept. 22.—Murder and arson were committed in the house of Anton Nicotiti before it burned last night, the police concluded today. Two bodies found in the ruins have been identified as those of Y. Saturella and J. Macaluso. Saturella's head had been crushed by a heavy blow. One of the bodies was found last night and was thought to be that of Saturella. Today, however, it was discovered to be Macaluso's. This morning Maria, 16-year-old daughter of Saturella, searched the ruins and was horrified to discover her father's body. Both men evidently had died in a small room from which they could easily have escaped. An overturned kerosene can gave the police their first clue to the arson theory. This is supported by the fact that Macaluso moved his belongings out of the house several days ago. The police believe Saturella, surprised Macaluso in the act of setting fire to the house and a fight to the death ensued.

Greeks Urged to Join
in National Defense

ATHENS, via Paris, Sept. 22.—Constantino Melas, deputy for Janina, has published an appeal to the inhabitants of Epirus asking them to join in the national defense movement started at Saloniki. The committee of National Defense was organized at Saloniki by Greek military officers and prominent civilians in the last days of August. The committee established what is termed the "provisional government of Macedonia" and addressed an appeal to the Greek people and army urging them to drive the Bulgars from Greek soil. On September 1, a Saloniki despatch stated that the eleventh army division, the police and the liberal or Venizelist party in Macedonia had joined the revolutionary movement and that a general mobilization had been decreed in the province. No definite news as to what has happened since then has been permitted to pass the censor.

Hungarian Diet Not
to Call Delegates

LONDON, Sept. 22.—The Hungarian diet has rejected the motion of Count Andrássy and Apponyi, leaders of the opposition, for the convocation of the delegations, according to a Budapest despatch to Reuters by way of Amsterdam. The storm, which Premier Tisza is now reported to have weathered, reached its height on the entrance of Rumania into the ranks of the allies. The matter, which the opposition demanded should be referred to the delegations, was the alleged incompetency of the Austrian government in the administration of foreign affairs and the inefficiency of the Austro-Hungarian army administration.

OFFICIAL WAR STATEMENTS

FRENCH
PARIS, Sept. 22.—A most violent attack on the new French lines north of the Somme along the Le Priez-Rancourt line was stopped by French curtain fire last night, it was officially announced today. The Germans were driven back to their own trenches, leaving no prisoners.

The announcement follows:
North of the river Somme German forces this morning delivered a strong attack upon our new positions between Le Priez Farm and Rancourt. Our curtain of fire, however, checked sharply the assaulting waves of the enemy and compelled them to retire to the trenches whence they had started, at the same time inflicting upon them heavy losses.

Elsewhere on the front the night was relatively calm.

BRITISH
LONDON, Sept. 22.—The British are again striking hard on the Somme front. Their latest thrust, decried last night, consisted of two lines of German trenches on a line about a mile long between Fiers and Martinpuich, the British announce today in their official statement, which follows:

During the night we advanced on a front of about a mile, capturing two lines of hostile trenches approximately between Fiers and Martinpuich. Our front now runs approximately on a direct line north of Fiers and Martinpuich. The enemy's trenches were successfully entered last night south of Arras, prisoners being taken and many casualties inflicted. North of Neuville St Vaast a mine was blown up by us and the crater occupied.

We have pushed farthest toward Bapaume, which is but little more than three miles distant from Fiers. Last night's advance straightens out the former bend in the line from Martinpuich to Fiers, which now runs almost directly east and west.

On the Macedonian front, in the region north of Florina, the entente drive towards Monastir apparently is developing strength. Along the Struma front and in the region of Dobruja there has been the customary artillery fighting. Between the river Vardar and the river Cerna a violent Bulgarian attack upon Zborzyk was subjected to a sanguinary check.

In the region of the Pecos river, Serbian troops, continuing their forward march penetrated as far as the immediate vicinity of Urbani (Vrveni). About 100 prisoners were captured by the Serbians.

North of Florina an attack of the enemy was broken by the fire of the French Infantry. Our troops cleaned up all the ground northwest of Arras and made some progress following severe fighting upon the heights which dominate the road from Florina to Popili.

GERMAN
BERLIN, Sept. 22.—A report issued by the German admiralty today says: German seaplanes on September 20 successfully attacked with bombs two Russian ships used as sailing places for airships, which, escorted by one cruiser and several destroyers, approached the Bulgarian coast near Varna. The hostile sea forces were compelled to retire immediately and were pursued by our seaplanes.

German hydro-aeroplanes later successfully attacked hostile transport steamers at Constanza

and dropped bombs on the railroad in Northern Dobruja. In spite of heavy shelling all the raiders returned.

Reporting military operations in France, the German official statement issued today says:

Western front: Apart from lively artillery and hand-grenade engagements on the Somme and in the Meuse region there is nothing to report.

The Smoot summit again has been lost. Continued efforts of the Russians on Bahaludowa again have been without success, owing to the tenacity of our brave chasseurs.

Enemy attacks in the Tatarca sector and north of Lornawatra have been beaten off.

Sliebenburgen (Transylvania) theater: There is nothing to report.

SERBIAN
SOFIA, Sept. 22.—Only minor fighting on all the Bulgarian fronts, with no change in the general situation, is reported in an official statement issued by the war office today. The text of the statement follows:

Macedonian front: There is no change in the situation. Our troops at Florina and Kaimakalan height passed the day in relative quiet. A Russian attack on hill 1279, north of the village of Armenik, failed. Hostile battalions were repulsed in disorder in the Moglenica valley. On both sides of the Vardar there was weak artillery fire. In the Struma valley a frustrated attack by the Aegean coast quiet prevailed.

Rumanian front: Along the Danube the day was quiet. In Dobruja our detachments are consolidating their positions. Yesterday was marked by feeble actions only. German airships successfully attacked the enemy railway line near Toheravada, causing great damage. A Russian squadron of twenty fighting units unsuccessfully bombarded the heights north and east of the village of Pervalla. Our hydro-aeroplanes frustrated an attack by hostile hydroplanes on Varna.

RUSSIAN
PETROGRAD, Sept. 22.—"On the western and Caucasian fronts there were no developments of importance," says the official statement issued today.

ITALIAN
ROME, Sept. 22.—Italian troops have made further progress on the Trentino front, the war office announced today. "Persistent bad weather again interfered with the activity of the troops yesterday throughout the whole theater of operations."

The statement says:

Nevertheless some further progress is reported in connection with our persistent advance at the head of Vanie Climon Valley, and toward the summit of Monte Sief in the Upper Cordevale. On the Julian front there were limited artillery actions.

Hostile batteries shelled Gorizia without inflicting any harm.

**S. F. Police Locate Man
Wanted in Oakland**

Howard A. McLellan wanted by the Oakland police on charges of uttering fictitious checks, has been located by the San Francisco authorities in the Washington hotel, San Francisco, where he is in with a severe case of la grippe. A guard has been placed over him, and he will be turned over to the local authorities when he recovers.

McLellan is alleged to have passed fictitious checks on Charles Lynde, manager of the Alamo Hotel, 644 Fourteenth street, Oakland, early this month.

SAY CLEMENSON SHOULD DROP WORK

Ministers Declare Reasons for
Resignations Are Not
Important.

(Continued From Page 1)

amenable to the rules of his church, and that doubtless he went into the Presbyterial fold with his eyes open, knowing its rules.

"He would howl if his house was robbed, and every word he said was against robbery," said Van Horn. "He would want the law's protection then."

"He is just talking through his hat—he stepped on a live wire and got hurt. I don't want to make any serious issue out of this."

NOT IN CHURCH.
Clemenson has not occupied a pulpit for three years. He was formerly secretary of the Marin County Promotion League and is the author of several books. He was recently sued for divorce by his wife, who accused him of cruelty.

In his letter asking permission to withdraw from the ministry the reasons for withdrawal are set forth as follows:

"Because I am frankly out of sympathy with the ecclesiastical spirit, seemingly dominant in the Synod of California, which blacklists men who repudiate certain opinions and cannot see their way to accept the prohibition dogma, but claim the right to oppose the ecclesiastical politicians who are making that dogma a test of orthodoxy."

Because I do not believe in sumptuary legislation, agitated and brought about by the agency of the church, which inevitably engenders strife, divides communities and impedes the work of the ministry, whose divine message is peace on earth and good will to men.

RIGHT OF BELIEF.
Because I claim the right to support the political party of my choice, without interference from the church or criticism by brother ministers, yet at the present time this right seems to be called in question by a dominant sentiment in our Synod, which is lending itself to the support of an opposition political party.

Because the church, to which I have given my fealty for thirty-five years, has entered into a political combination, known as the "California State Church Federation," whose object it is to secure legislation on various so-called reform propositions for the state and is demanding that our people shall make this their main business, at least for the time being.

SEES DANGER.
Because I believe this agitation in and by the church is dangerous to the state, an infringement of individual liberty, contrary to the spirit of Christ's teachings and can accomplish nothing of spiritual value to society, but must result in vast evil, for which I do not wish to share responsibility as I should do did I remain quiescent.

Explaining the nature of the lectures that he gave in support of the grape industry, the Rev. Clemenson declared himself as opposed to the whiskey traffic and the saloon. In all of his addresses he made that distinction.

"I confined myself strictly to the advocacy of the grape industry," he states in his communication. "I pointed out that the proposed amendment embodied no provision for reimbursing the people, who, in good faith, had invested their money in the grape industry, as in justice it should do."

"Politically, I have never been a party prohibitionist and am not such now, because I neither believe in sumptuary legislation nor in law-made morality."

GERMAN HINTS AT PEACE PROMPT ALLIES TO DECLARE FOR WAR UNTIL VICTORY

By ED L. KEEN.

(United Press Staff Correspondent)

LONDON, Sept. 22.—Germany will set another peace kite flying about the middle of October, British officials said, both military and civil, confidently expect.

Recent apparently well-authenticated rumors have reached London that Germany is endeavoring to suggest an armistice through Spain or the United States. It is understood on reliable authority that King Alfonso so far is unresponsive and is unlikely to act. The Germans, it is believed here, hope to tempt President Wilson to start negotiations.

Americans conversant with inside British sentiment feel certain that any such move on the part of Washington would not only be foredoomed to failure, but would arouse the most bitter resentment of the allies and also permanently eliminate Washington as a possible mediator.

Every indication points to a oneness of purpose of all the allies to continue the war until a decisive peace is obtained, and to the fact that the army, the navy and political leaders are thoroughly united in the determination to assume responsibility if necessary for the war's

continuation after Germany is willing to quit.

It is no secret that the Anglo-French are prepared, both in numbers and munitions to continue the present offensive indefinitely regardless of winter weather. Although there was much nervousness a year ago when any definite peace proposals from Germany on a basis merely of abandonment of the occupied territory might have been considered sympathetically by the military authorities in view of the real precariousness of the situation, they feel that now everything favors the allies and that such an abandonment of occupied territory would only be to Germany's advantage, enabling her to shorten and strengthen her lines.

British soldiers' only worry now is possible over-optimism of civilians because of their recent successes and those expected in the future.

DIES FROM FALL.
SAN FRANCISCO, Sept. 22.—Griffith Jones, a seaman, who fell out of the window of his flat at 45 Brady street on Wednesday, died at the Marine hospital this morning.

Civilians Invited to Join U. S. Marksmen

WASHINGTON, Sept. 22.—Civilian marksmen have been invited to participate in the national rifle matches to begin at Jacksonville, Fla., October 11, under the auspices of the war department. It was announced today that the governor of each state had been asked to send one or more teams in addition to those from the National Guard, transportation to be paid by the government for one team or the money divided if a state sends more than one.

Canine Attaches Self to "Trusty"

Refuses to Be Turned
Away From Jail

"Sport," a foxhound, which took up his abode in the county jail after the murder of his master, Stephen Coppi, in Emeryville, a month ago, refuses to be turned away. He has attached himself to Joe Furtado, a "trusty" in the Hotel Barnett, and to the surprise of the jailers he returned from the country last night where he had been taken by automobile in the hopes that he would recuperate his health.

Since the death of his master "Sport" has been pining away. He made his appearance at the side jail door late at night and whined until the jailers called Furtado and let him in. He ran through the corridors to Furtado's cell, climbed into a bunk and settled himself for the remainder of the night.

BOMB CASE WILL GO TO JURY TODAY

Defense and Prosecution in the Billings Trial Completing Arguments.

(Continued From Page 1)

fostered and brought into being by the Pickers and the Brennans and the traffic squad, God save the mark.

Next time, instead of employing private police, let them hand a case of this kind to Captain of Detectives Patrick Shea, or some one of his quality, and find out who committed the crime and not the most easy and likely man to frame with.

One of McNutt's strongest appeals was made quietly and unostentatiously by the simple method of passing photographs to the jurors. He declared that the testimony of Estelle Smith was that she had waved a towel out of the office of the district attorney to finding Billings faint, ministering to his needs and cheering him on his way. McNutt exhibited photographs showing a woman waving a towel and pictures in the same print a Market street clock with the hands pointing to ten minutes to two. He said:

There is no contention here that Billings and McNutt were in an airship. It is three miles by way of Mission street from the Elmer building to Stewart and Market streets and back, and it is two miles for the round trip from 721 Market street.

McNutt showed photographs taken by three separate photographers in one of which two clocks were pictured. The one so vital to the defense was thus shown to give the correct time.

CONSIGNED TO ASH-CAN.
Every bit of evidence we have placed before this jury was volunteered to the prosecution and was consigned to the ash can. Why? Because it did not fit the dream of McDonald that Billings and Mooney had compared watches and walked around a pole after putting down a suit-case.

An alibi as complete and perfect as has ever been presented in the court of justice has been established for the Mooneys in the pictures of the Elmer building, and the photographer who took them thought it his Christian duty—and he lives at the Y. M. C. A.—to refuse us even an interview. We had to wait until they were brought into court by the prosecution.

I say that in this case it was the hope of the district attorney's office to frame a case that would fit Warren K. Billings and Thomas J. Mooney, and nobody else, and not to find out who did the job, who committed the actual crime, the most hideous of crimes and one that beggars all description.

STUPIDITY SHOWN.

But for the time his honor gave us to prepare for his defense, Warren K. Billings might have dangled from a California-made gallows. As it is, this case will go to down into history as a monument to stupidity and stupidity. They have shown here no fingerprints of Billings' hands that must have been all over that roof at 721 Market street. No analysis of the condition of that sidewalk at Stewart and Market streets. They have proved there was an explosion, the character of which their own experts decline to say. McDonald saw Billings and Mooney going through their antics behind that crowd. Billings shot the crowd and led to the ferry building, Mooney towards Drum street. That is enough for McDonald; we will leave poor McDonald to his drug store dreams. We will let him go back to the City and County hospital to let him visit some of his friends who do not take surgical treatment in ward G.

VAIN IS THE NET.
They were following Billings. He went right down in the midst of the "bills," they say. Lieutenant Matheson was there, so was Lieutenant Bunker. An old man named Solomon in one of his early preachers said something to fit the case when he wrote: "Surely in vain the net is spread in the sight of any bird."

McNutt finished his argument at 11:30 o'clock with a plea to the jury not to send an innocent man to prison and not to allow opposing counsel to becloud the issue or befog their minds in the final argument for the state.

BOMB WAS PECULIAR.
He also set up the proposition, which he said he would prove in the course of his remarks, that the bomb itself was of a peculiar nature, that it was cleverly constructed and that its actual making and in its component parts it had been traced to Billings and was of his handwork or that of his associates.

For more than an hour yesterday District Attorney Charles M. Fisk presented to the jury his argument that the State's evidence pointed conclusively to the guilt of Billings. In his argument he said:

The preparedness parade bomb outrage was the most infamous crime that ever blackened the criminal records of the United States. An imperative duty confronts this jury as American citizens to wash away that stain. No foreign foes did it, but men right here in our own community—men who had not the courage to attack openly, the manly men of the parade, to place their bomb in a division where American soldiers carried rifles, but who stole up a side street and deposited it where it would deal death to innocent bystanders.

The life of the very nation itself is involved in meeting out punishment for this crime. By your verdict proclaim to the United States that patriotism in San Francisco is not a crime to be punished with dynamite and that men who attack upholders of the flag cannot escape justice. Show the rest of the world that San Francisco is a city of law and order.

The mind that could conceive such a crime could readily fabricate an alibi. Remember that dynamiters are white-livered scoundrels who think they can control by inspiring fear and terror. We must do our whole duty as public officials and jurors by refusing to be intimidated.

Various Forms Of Headache

"It is necessary in order to treat headaches properly to understand the causes which produce the affection," says Dr. J. W. Ray, of Blokkton, Ala. Continuing he says: "Physicians cannot even begin the treatment of a headache without knowing what causes give rise to it, and we must remember that headache is to be treated according to the same rule. We must not only be particular to give a remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble has been removed. To answer this purpose, anti-kammin tablets will be found a most convenient and satisfactory remedy. No tablet every one to three hours gives comfort and relief in the most severe cases of headache, neuralgia and particularly the headaches of women."

When we have a patient subject to regular attacks of sick headache, we should caution him to keep his bowels regular, for which nothing is better than "Antoids," and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients always be instructed to carry a few anti-kammin tablets, so as to have them ready for instant use. These tablets are prompt in action and can be depended on to produce relief in a very few minutes. Ask for A-K Tablets. Anti-kammin tablets at all druggists.

WOMEN WAR OVER LOVE OF INVENTOR

Both Sides in Alienation Suit of Mrs. Pauline Oneal Prepare to Tell Story of Tangle in Which Affections Is Basis

Both sides in the \$15,000 alienation suit brought by Mrs. Pauline Oneal, divorcee, against Mrs. Harry DeVere Winton, wealthy widow, who is alleged to have won the affections of Rudolphus Oneal, inventor, are preparing to present their testimony when the trial of the case is resumed next Monday before Superior Judge W. M. Conley, sitting for Judge T. W. Harris. Mrs. Oneal divorced her husband three months ago. She complained that he had transferred his affections to Mrs. Winton. For her part Mrs. Winton said that her relations with Oneal were strictly of a business nature, he having managed her property interests to some extent. Oneal is the inventor of a steel railroad tie. He has offices in Chicago and his wife alleged that he is on the road to wealth. She refused to become reconciled with him at the time of the divorce trial, explaining that she had forgiven him many times before and that she could not trust him any longer.

Big Firms Help Drinkers

A prominent factory president said recently: "During the past three years I have influenced several employees and others to take the Neal Drink Treatment. It is a good investment for employee and employer." The Genuine Neal 3-Day Treatment is quick, harmless, and effective. No hypodermics, no opiates. Narcotic drug addictions successfully treated.

For details address W. S. Wallace, manager Neal Institute, 1550 Bell street, San Francisco. Phone West 563. 40 Neal Institutes in 40 Principal Cities

Woman Plans Return to War Zone Granted New Passport in Oakland

MISS MAY GRINNELL NORRIS, WHO HAS SECURED NEW PASSPORT INTO FRANCE.

When Miss May Grinnell Norris leaves Oakland next week to resume her residence in Paris and her work for the Red Cross among the wounded

soldiers from the trenches, she will keep close hold upon a new passport which she will receive before her departure.

Miss Norris, who is stopping in the home of relatives at 2023 Oakland avenue, Piedmont, has been spending the summer in California, having left Bordeaux in the party of the American ambassador last summer, at which time her passport was stolen at the French port as she was leaving. As a result she obtained a certificate from the French consul through the aid of the ambassador and was permitted to leave. She also had other credentials from the French military authorities stating her connections with the relief work. She is entitled to wear the insignia of the French Red Cross.

Her passport papers, which are now on their way to Washington for validation, will permit her to leave France for Spain next spring, where she intends to paint among the scenic splendors of the Alhambra.

Miss Norris was born in France and has spent many years there in her pursuit of the arts. She claims France as her residence.

Norwegians Purchase Str. Edgar H. Vance

The steamer Edgar H. Vance has been purchased by a Norwegian company from the Hammond Lumber Co. for the sum of \$725,000, and is to be delivered to the new owners in December. She is now en route to San Pedro from Astoria, with a cargo of 2,500,000 feet of lumber. The Vance is one of the largest carriers on this coast, and was built at Long Beach three years ago.

The Hammond company has now disposed of all of their large steel steamers, but is constructing wooden ones in their place. There are two under way and one—the Santiam—arrived in Oakland today from Eureka to have her boilers and engines installed.

JACK LONDON WILL NOT JOIN UNION

Author of Revolutionary Books
Protests Against Entering
A. F. of L.

Has Jack London's independent income from short stories, novels and moving picture royalties made him forget the days of his early struggle in Oakland when he was a Socialist of the most fervent variety? Has his secure position in the ranks of fiction writers made him secede from his attitude as a champion of labor? Has he forgotten writing "Why I Am a Revolutionist?"

These questions are being asked today by London's friends in this city since it has been learned that the author of "The Sea Wolf," "The Children of the Abyss," "The Iron Heel," and "The Call of the Wild" has signed a protest against the proposal that the Authors' League of America should affiliate with the American Federation of Labor. Ninety members of the organization have put their names to the protest.

Among those who signed with London are George Ade, Cyrus Townsend Brundage, John Burroughs, Winston Churchill, Hamlin Garland, Emerson Hough, Joseph C. Lincoln, Bret Matthews, Ray Stannard Baker, Samuel G. Blythe, Irvin S. Cobb, James M. Hagg, Will Payne, Ida M. Tarbell, Kate Douglas Wiggin, Owen Wister and Edward Mott Woolley.

They denounce the proposed affiliation as "inappropriate, disadvantageous and dangerous," and assert that those favoring it dwell on the advantages of standardized contracts in the publishing, magazine and theatrical businesses, but fail to show that it would attain any of these results. A promise that the authors' League would receive the support of the Federation of Labor without any reciprocal obligation or support is criticized as one-sided, unfair and wholly unworthy of the Authors' League.

Mrs. Dick Has Given Up Astor Residence

NEW YORK, Sept. 22.—Marking its relinquishment by the former Madeline Force Astor, now Mrs. William K. Dick, painters are working on the Astor residence, 35 Fifth avenue, preparing it for Vincent Astor and his wife, formerly Helen Dinsmore Huntington. The change is in accordance with the terms of Colonel Astor's will, which stipulated that the house should remain his widow's unless she married again.

His "Hair" Was Only Crack in Plaster

PITTSFIELD, Mass., Sept. 22.—Comb and brush in hand a Pittsfield man sat in front of a mirror and fussed and fumed trying to prevail on a refractory hair to lie down. He resorted to water, then to oil but all without avail. The hair simply wouldn't behave.

Finally he looked a little more closely and discovered that the "hair" was a crack in the plaster behind him.

Four National Guard Companies to Border

WASHINGTON, Sept. 22.—Two Wyoming National Guard infantry battalions, Troop A of the Kansas cavalry, and Troop B of the Wisconsin cavalry, were ordered to the Mexican border today by the War Department.

REXALL MEN MEET.
SAN FRANCISCO, Sept. 22.—One hundred delegates were present at the annual convention of the Northern California Rexall Club, held at the St. Francis Hotel. James L. de Moivre, Pacific coast manager of the United Drug Company—the corporation which controls the Rexall drug products—announced that he was leaving for the West to take up duties there. Addresses were made by P. A. Ryan and W. M. Berg, members of the club.

DRAG RIVER FOR MAN.
EUGENE, Sept. 22.—D. C. Holt, a retired merchant of Harrisburg, Ore., has been missing since late yesterday, when he went bathing alone in the Willamette river. It is believed that he has been drowned and the river is being dragged.

"Hoodoo Millionaire" Weds; Parting Follows

STAMFORD, Sept. 22.—John H. Tyson, the "hoodoo millionaire motorist," and his third wife have separated. Their married life lasted exactly six days.

September 11, at midnight, the young scion of a prominent New York family was married to Miss Rose Budd Exiner of New York.

In a remarkable interview today Tyson declared his love for another woman. "I told my wife that we had made a mistake," said Tyson. "I told her I had married her when I was angry,

angry at the other woman and to spite the other woman. The woman I really love is Mrs. Olive Bass of Stamford."

When asked as to the truth of Tyson's statement, Mrs. Bass answered: "That's quite right. He loves me and I love him." She is separated from her husband.

BABY ESCAPES DEATH

STOCKTON, Sept. 22.—H. H. Rossbach, wife and baby of San Francisco sustained injuries near Banta when their automobile collided with a fish peddler's car. The baby was thrown through the windshield, but escaped with minor injuries.

Crazy? Laughing Gas Said to Be Cure

NEW YORK, Sept. 22.—Are you crazy? See a dentist. Mrs. Lloyd Warfield of Spencertown, N. Y., has been hopelessly insane since February. Today her husband, before sending her to the asylum at Poughkeepsie, took her to a dentist. He said it would be necessary to pull all her teeth. Mrs. Warfield went under laughing gas a crazy woman; she came back to consciousness toothless—but sane.

Protection & Economy

YOUR husband uses a safe to protect his valuables—we use a vacuum-sealed tin to protect your coffee's flavor. It seems to us that you might as well buy a package with no coffee in it, as buy coffee with no flavor in it.

Of course, there is always more or less flavor in coffee—some sort of flavor; no matter how poorly it's protected, even in paper bags or open bins.

But the flavor of fine coffee—the flavor that puts richness and smoothness into your cup, that makes your coffee give a real pleasure of its own instead of merely acting as escort to your food—nothing but vacuum-sealed tins can preserve such flavor!

In these tins, you find Schilling's to be economical—of such rich strength that you use less for each cup. Without these tins, it would n't be; the tins save their cost over and over.

Sold through grocers only.

40 cents a pound.

WHAT IS AUTO-INTOXICATION?

The best and clearest definition is "Self-Intoxication, or poisoning by compounds produced internally by oneself." Physicians agree that 95 per cent of all illness is due to this cause, brought on by accumulated waste in the Lower Intestine.

The one sure, natural and safe way to keep the Intestine clean and free from this waste is by an occasional Internal Bath with simple warm water given by the "J. B. L. Cascade."

You will be astonished at your feelings the morning after taking an Internal Bath by means of the "J. B. L. Cascade." You will feel bright, brisk, confident and as though everything is "working right"—and it is.

Half a million Americans are now using this method with resulting better health and greater vigor. This method will be explained to you by The Owl Drug Co., who will also give you a most interesting book, free, on the subject, by an eminent specialist. Ask or send for this booklet, called "Why Man of Today is Only 50 Per Cent Efficient," while it is on your mind.—Advertisement.

Job Printing at TRIBUNE Office.

How Many Titles Have You Found for Picture No. 6? A Dozen? Very Well; Submit Them All by Submitting 3 Sets of Answers!

A contestant complains that she has discovered twelve titles she would like to submit for one picture, and from six to ten for many other pictures.

"What do you advise me to do?" she asks.

Well, the rules permit as many as three sets of answers to be submitted by each participant. Why not submit three, and thus put before the judges the total result of your shrewd search through the list of titles? You may submit five different titles for each picture in each set, so if you submit three sets you can submit as many as fifteen different titles for each picture!

If one set doesn't contain all the

best titles, then perhaps the second or third set will do so.

Doesn't that permit the fullest submission of your ingenuity? No matter how many titles you wish to submit for a picture (up to fifteen titles) you can submit them all by submitting a second or third set of answers. And thus you increase your opportunities, and make just as certain as is possible that you will gain a prize for your long use of common sense judgment in culling titles from the list and selecting those you wish to submit as possible titles for the pictures.

Turn to today's announcement and notice the offer we make there. You can secure a second and third outfit, and secure with each outfit all thirty-five pictures free also!

GASOLINE FAMINE ON COAST FEARED

Shortage Predicted by Experts; Reasons Shown in Detailed Report.

GLOBE, Ariz., Sept. 22.—A serious gasoline shortage on the Pacific Coast, the effect of which would extend throughout the entire country during the next year, was predicted here today during the closing session of the convention of the American Institute of Mining Engineers.

W. R. Hamilton of San Francisco presented the gasoline industry data to the engineers. According to Hamilton, the only possible means of increasing gasoline production are by the increased production of either light oil or casing-head gasoline, lowering the grade of market gasoline, or by successful innovations in refining methods. Most of these solutions Hamilton explained as impracticable in the immediate future, although he said that by lowering the grade of gasoline production could be increased from 30 to 50 per cent. He attributed the future gasoline shortage to decreased production of refinable oil (the decrease amounting to 6,000,000 barrels in 1915), steadily increasing consumption, the discontinuance of imports and the heavy exports due to the European war demands.

Discussing the value of chemistry to the coal mining industry, Edwin M. Chance declared in a paper read at today's meeting that Americans have in the past been purchasing coal on its looks rather than because of its heating power. He made public results of experiments which showed dull appearing coal to have better heating and burning properties than the bright coals which have formerly demanded premiums in the market. It is said that this discovery will greatly help to offset the cost of coal production without materially increasing the cost to the consumer.

Tomorrow the engineers will leave Globe in a hundred automobiles for a day's tour of the Apache trail and an inspection of the Roosevelt dam, probably the greatest engineering feat of its kind in the world. The trip will be resumed by special train at Phoenix tomorrow night and Sunday will be spent at Grand Canyon. Since its start from New York city on September 14, the eastern party has visited practically every important mining center of the southwest.

Bleachers Collapse; Two Hundred Fall

MASON CITY, Iowa, Sept. 22.—Two hundred persons were dropped in a heap when a set of temporary bleachers collapsed during the taking of a group picture.

Number were cut and bruised but none was seriously injured. The men in the group were Masons gathered here for a meeting of the Mystic Shrine. All were present at a meeting when a class of more than fifty was initiated into the order.

Constitution the Father of Many Ills. Of the numerous ills that afflict humanity a large share start with constipation. Keep your bowels regular and they may be avoided. When laxative is needed take Chamberlain's Tablets. They not only move the bowels, but improve the appetite and strengthen the digestion. For sale by Cargood Bros. Drug Stores. Advertisement.

KISSELKAR

The ALL-YEAR Car Show
September 23 to October 1

You are cordially invited to attend this unique exhibition

Starts in Oakland Tomorrow

The curtains is about to go up! The ALL-YEAR beauties are here and having their final rub-down, so that at 9 A M Saturday everything will be ready for your inspection.

The ALL-YEAR Car, Kissel's original "two-in-one" idea, changed the motoring habits of a nation. It is a wide open roofless touring car in the summer, a luxuriously upholstered closed coach during the wet weather.

No shoddy work here—no crude overlapping of top—no rattling, no unsightly fastenings. ALL-YEAR Tops are built-in—not on—to the lower body; a smooth, graceful dovetailing of the two body-units.

Come! We want you to compare these models with the other so-called convertible types. You will appreciate Kissel supremacy once you see these new models.

The Hundred Point Six

The car of a Hundred Quality Features—every one vital to service and satisfaction. ALL-YEAR Touring-Sedan, Roadster-Coupe and Victoria-Town Car are mounted on the famous Hundred Point Six chassis. Prices, \$1520 to \$1850. Open touring and roadster bodies without the ALL-YEAR feature, \$1095—\$1195.

The entire top—roof and all—is removable, insuring the obvious advantage of a wide open roofless car in summer. The top FITS IN—not on. No crude overlap at the joining point—no projecting fastenings inside or out to mar its appearance.

Commissioner F. F. Jackson
Seeks Appropriation From
Freak Fund.

The council adopted an ordinance appropriating \$2000 for the laying of sidewalks along the Melrose branch library and adjacent to the Fremont High, Clawson, Tompkins, Fruitvale, Laurel and Lockwood schools.

The amendment to the ordinance placing the property at Seventy-third avenue and the Southern Pacific tracks in an industrial zone, the council adopted the measure today. The amendment states that the slaughter house shall be erected in the zone unless the zone is attached to a packing plant. The zone was extended that the Moran Packing Company may put up a half million dollar plant on the site.

The council adopted a contract for construction to John C. Rohan.

OAKLAND TRIBUNE, Oakland's greatest evening newspaper, assures its advertisers that the circulation of this paper, reaches every day over 250,000 readers.

INFIRMARY CONDITIONS DEPLORED

Supervisor Tells Members of Oakland Women's Civic Club County's Shame Is Due to Desire for the Low Tax Rate

It is a shame that we permit human beings to be confined in such a place. The buildings are old, dilapidated, worn out, unfit for human habitation. The flies are there. The rats are there. The bedbugs are there. The rats are awful. I have been there during the day, and at night I have seen human beings sneaking into places like rats.

But, unfortunately, people have a great desire that the tax rate shall be kept down. The tax rate is being kept down at the expense of these poor persons at the County Infirmary who are living in conditions that all of us must deplore.

(Continued on Page 15, Col. 2)

SABATO LAMENTS THEFT OF GARLIC

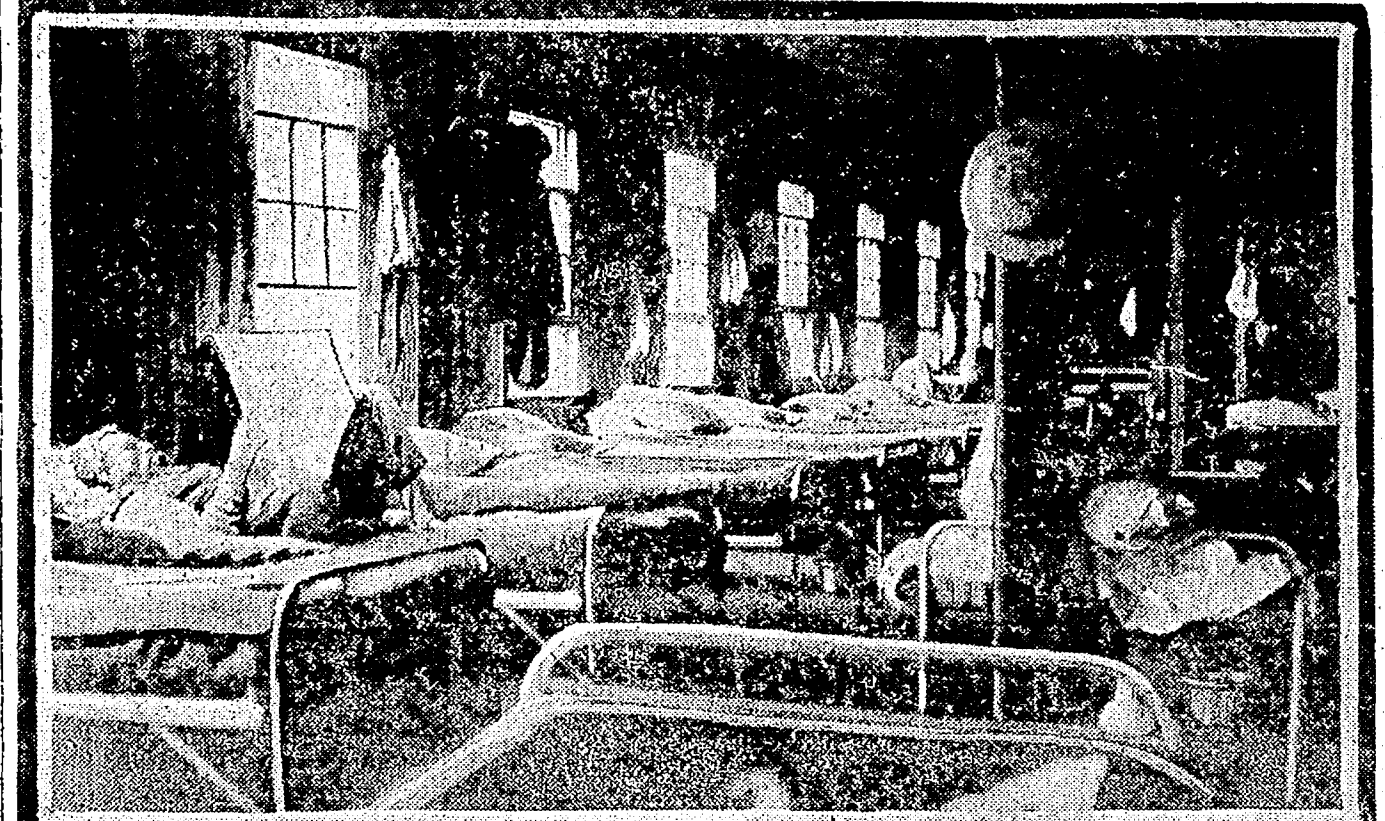

Home Grown Product Has a High Value; Other Crimes Told Police.

The police have a strong clue to the identity of a thief who last night entered the home of Gastone Sabato at 930 Ninety-second avenue, and robbed that unfortunate man of 200 pounds of treasure. The burglar disturbed nothing else in the house, but, led by his sense of smell, walked directly to a sack containing 200 pounds of garlic and made away with it. Sabato, bereft, has applied to the police to have the lost garlic at \$15, but maintains that it is not the intrinsic value of the precious commodity that grieves him. He says it's home-grown, and for that reason of enhanced value to him.

Will Ride in Trolley to His Inauguration

BUENOS AIRES, Sept. 22.—Unless all the politicians and society people combined dissuade him, President-elect Irigoyen will ride to his inauguration as the head of the Argentine republic on October 12 in an ordinary street car.

DORMITORIES OVERCROWDED INFIRMARY IS COUNTY'S SHAME NO DAY HALL FOR INDIGENTS

Crowded dormitory, one of the newer buildings at county infirmary, showing beds placed close together. More beds will be installed as numbers increase during winter. The indigents assemble in this sleeping quarters during the day, especially in bad weather.

Mingling of Aged and Infirm With Hospital Cases Presents Complex Problems

(In this article, the seventh of the series on the county infirmary, the problems of overcrowding, and of intermingling the patients in temporary need of hospital care with the indigents, is discussed. The first article on the shame of Alameda county, published last Saturday, described the wretched, sweltering tent in which a smallpox patient is isolated; the second, the mingling of maternity cases with chronic sufferers and the feeble-minded in one ward; the third, the violation of the State tenement law in the housing of indigents; the fourth, the leper colony; the fifth, the loathsome barracks ward; the sixth, the porch-ward waiting room and the impressions made upon a patient coming to the hospital for temporary aid. The articles attack no one—they assail a condition that must be remedied before disgrace is converted into a pitiful tragedy.)

There are between 680 and 690 inmates at the county infirmary. Of these only 245 are classified as hospital cases. The balance are aged and infirm, feeble-minded and cripples.

There is no clear line of demarcation between the hospital cases proper, the cases of persons who are in temporary need of hospital care for which they are unable to pay, and those who will ultimately return to the work-a-day world, and those who are permanently out of the struggle and must be maintained as charges upon the community.

The management of the hospital is faced with this double problem and its work in one branch is hampered by that in the other. The two internes and Dr. Willis, the resident physician, are overworked in caring for the needs of 245 hospital cases. Yet Dr. Willis is also superintendent of the infirmary at large and has duties which include overseeing a pig ranch and a dairy and of working out the problem of keeping all these indigents in as good condition as possible with the wretched quarters, scanty sanitary facilities for bathing and with but little time to give to the task of organizing the indigents in such a way that they can contribute a little to their own care.

Although three large dormitories for men have recently been erected, these are already overcrowded. And they are only wooden frame structures, hard to keep clean, destined to speedy depreciation.

These dormitories are already overcrowded. The beds in dormitories Nos. 1 and 2 are so close that there is scarce room for a chair between them. In addition to the row of beds down each side, there are rows down the middle and other beds sandwiched in between.

This condition, Superintendent Willis declares, will quickly grow worse as winter approaches and as the number of inmates increases with the onset of bad weather. The air and requirements will be ignored, as they are now being ignored in the barn and cellar dormitories and the barracks ward.

There is not enough locker room. The lockers are built into the building and so cannot be cut off from the ever-present Argentine ant. The lockers must be ventilated and where air can enter the ants also enter. This problem of the Argentine ant is one that presents grave difficulties. The infirmary acres are alive with the Argentine ant. They get into the hospital wards, into the kitchen and the dining room. They even get into the home of the superintendent, Dr. Willis explains.

Kindness becomes mockery. In the infirmary, the sick, in those of the old and infirm men and women, the presence of the ants is something of a tragedy. A woman explained this. She said: "People bring us candy sometimes. They bring us cake. But we cannot save it until the time when we may want to eat it. We cannot place it in our lockers. If we do, when we go to remove it, it is black with ants. It is gone."

The kindly act has been turned into a mockery. The old people lack a day hall. There is a day hall, but it is provided in the new women's quarters erected on the hill, the first unit of the new relief home plans being put in under the direction of Architect Henry Meyer. It provides a place where the aged women may assemble in inclement weather to sew and knit, to read and chat. But at present, like the men, they have only their dormitories for these purposes.

Books but no library. There is no library at the infirmary, although the inmates have a supply of books from the Oakland public library, books for the most part that have gone into the library discarded. But they are piled in a shed and there is no adequate system of handling the library. Magazines are often piled on the ground outside the main office.

Dr. Willis is recognized among members of the medical fraternity as an excellent physician and as a splendid surgeon. He is a kindly man. But the functions which are combined in the superintendent and resident physician are contradictory. They call for two distinct kinds of qualification. It is too much to expect that a surgeon should also have the qualifications of a business manager or a farm superintendent. It is futile to expect that a business manager should also be a physician. Dr. Willis said:

My internes are interrupted in their regular hospital work to make a tour of the dormitories and care for the minor ills of all these indigents. That takes several hours so as to teach them self-help, to make them 40 or 50 per cent efficient in their own behalf. They would be happier and better off. That would be the intelligent way of handling this situation.

We do the best we can. But we have too many different kinds of things to attend to at one time.

ASTHMA SUFFERER Write today: I will tell you, free of charge, of a simple home treatment for asthma which cured me after physicians and change of climate failed. I am so grateful for my present good health, after years suffering, that I want everyone to know of this wonderful treatment. Mrs. Nellie Evans, 555, S-3, Des Moines, Iowa. Adv.

Academy of Science Opens in S. F. Park

SAN FRANCISCO, Sept. 22.—After three years' efforts, in which collections many years in the making were secured, the new museum of the California Academy of Science opened this afternoon with appropriate exercises by city and state officials and officers of the organization. Tomorrow, the museum will be thrown open to the public as one of the biggest features of Golden Gate Park.

Blackmail Trials in Philadelphia

PHILADELPHIA, Sept. 22.—The four alleged members of the "blackmail trust," accused of being implicated in the kidnapping of Mrs. Regina Klipper, important government witness, will be tried in Philadelphia, Special Agent Garbino of the department of justice announced today on his return from the Washington conference.

Alexander Divorce Threatened by Pair SAN FRANCISCO, Sept. 22.—Rumors of a separation and impending divorce in the family of Archibald M. Alexander, whose eloquent wife, Frances Clift, daughter of Mr. and Mrs. William Clift, owners of the Clift Hotel, are being freely circulated in local society. The bride is in fact with her parents once more and her youthful spouse is living not far off at the Regina apartments. The secret trust at Fresno last March followed by a wedding ceremony and an unforgiving father evidently did not auger well for the happiness of the young couple. It is said that Mrs. Alexander's family never gave their approval of the match and when they returned to this city and went to reside at the Hotel Stewart, only a block from the parental hostelry, the reserve of the Clifts was still adamant. Now it is said that each has retained the services of the attorney and a divorce action will soon be filed. U. S. ATTORNEY QUILTS. LOS ANGELES, Sept. 22.—Mansel G. Gallaher, assistant United States district attorney here, has resigned. It was announced today, effective September 30, to return to private practice at Fresno, where he was in the county district attorney's office when given the federal appointment in January, 1915. PINEAPPLE CARGO DUE. Steamer Daisy Putnam will arrive from Honolulu tomorrow with 30,119 cases of pineapples, to be unloaded at the new city dock foot of Clay street and be shipped to various trading towns by rail. It will take twenty-five cars to take the cargo away. The cars are ready for the steamer to arrive.

More 'Phone Boxes Yield "Jitney" Loot

Daylight robbery of the cash box of a pay telephone in an apartment house at Ninth and Oak streets has followed a series of more than twenty similar robberies in different parts of town. The police are today searching for the perpetrator of the latest theft in which the cash box was broken open in the middle of the day yesterday.

With one of two exceptions the robberies have been well-timed and remained undetected until the telephone company sent its collectors to empty the boxes. More than \$100 in nickels was stolen from the boxes. The installation of electric alarms, which will automatically notify the police when a telephone cash box is tampered with will, it is believed, end the robberies.

Sees Prosperity Ahead for States

NEW YORK, Sept. 22.—Charles Hamilton, member and former governor of the federal reserve board, gave his views on future American prosperity at the annual dinner of the Institute of Accountants last night. He spoke as follows: "I estimate that the wealth of the United States has increased during the last two years by \$40,000,000,000. Bank deposits have increased between \$6,000,000,000 and \$7,000,000,000 and the stock of gold has increased more than \$700,000,000. Since the first of the year the importations of gold have amounted to \$60,000,000.

"No nation of the world has ever enjoyed the prosperity that this country now enjoys."

ELECTRIC STORM DAMAGE IS DONE

Bay Region Visited by Heavy Fall, Thunder and Lightning.

That the bay region is probably in for a continued storm was the prediction of the weather bureau today following one of the most severe electrical storm disturbances in the history of the bay region. Today toll is being taken of the damage yesterday's thunderstorm, in which lightning started several fires and storm disturbances created other damage.

The results of the electrical storm about the bay today stand totaled as follows:

Street car in San Jose, struck by lightning. Transportation tied up.

Mission street car jumped track in San Francisco, at Mission and Valencia streets. Motorman injured.

The precipitating cause of the thunderstorm was principally one specially heavy shower. This ranged from .30 to .50 of an inch, according to the various districts about the bay, as the shower was uneven.

The general rainfall began at 2 o'clock in the afternoon, after storm warnings had been sent out shortly before noon. At Fresno the storm was reported in mid-afternoon, but no other station reported yesterday until 5 o'clock. The storm extended north into Marin and south into Santa Clara county, and is declared to be the remnant of a storm that has been traveling over Arizona.

PANIC ON STREET.

The striking of pole by lightning in San Francisco created a panic on a crowded street, when a Pacific Gas and Electric Company transformer at Polk and Pine streets, was wrecked. Frightened pedestrians scurried to cover. The flash, coming along the light wires, set fire to the home of Mrs. Julius Heyman, 1561 Polk street.

The Hotel Carlton, in Berkeley, was flooded when a storm sewer on Durant avenue became clogged and overflowed. A transformer on a pole at Seminary avenue and East Fourteenth street, carrying high power current, was struck and burst into flames. The lighting system of East Oakland was cut off, and wires melted and dropped, the hissing electric wires keeping away the firemen until linemen managed to "kill" the current.

The car accident in San Francisco was due to slippery tracks. A Mission car, in charge of Motorman Morris Deale, slipped, jumped its tracks and struck another car. Deale was badly cut. No one else was hurt.

In San Jose the lightning destroyed the old tree at Alameda and Stockton streets, one of the famous landmarks of San Jose, put two cars out of commission, temporarily blinded C. E. Bernal, who was in charge of an oil station near the tree that was struck, and played many freakish tricks, coming down chimneys of homes, smashing dishes and wrecking telephones. In Salinas heavy hailstones fell, some being an inch and a half in diameter. The San Joaquin valley reports grape damage.

STATE GETS WET.

SACRAMENTO, Sept. 22.—Following light showers early yesterday a continuous downpour began shortly before 7 o'clock in Sacramento and continued to a late hour. Today's forecast for the weather office is clearing weather.

STOCKTON, Sept. 22.—Unusually early rains, accompanied by thunder and lightning, promise to do considerable damage to the late crop in San Joaquin county. The rain has been unusually heavy.

MARYSVILLE, Cal., Sept. 22.—Rain fell here last night and the fruit growers are worried, as a heavy rain may do great damage, they say, to the raisin grape crop. Lightning started fire and stopped light service.

FRESNO, Cal., Sept. 22.—Vineyardists are optimistic about the present rain, although 70 per cent of the raisin grape crop is drying on the trays and it is held that only small damage will result unless rain continues. The San Joaquin Light and Power Corporation's lines in Crano valley were out of commission and power for lighting the cities and homes in the San Joaquin valley was furnished through the steam plant at Bakersfield.

Race Suicide Story on Broadway Film

The new picture on race suicide, preached against modernism, and instead of being a low life affair, the Universal Company has pictured a wonderful dramatic story amid surroundings of luxury and wealth. This has added to the intensity of the story, and the representative audience all agree it will pronounce it a great picture.

Richard Walton, a district attorney, is after doctors who have had the full story well to do and his wife moves in the highest social circles. It develops that many of the women in her set who don't want to be bothered by motherhood are from time to time patients of a certain doctor.

Mrs. Walton's young brother visits them at the same time the beautiful young daughter of their bookkeeper comes to the Walton home. An operation is not a success and she dies. District Attorney Walton, who loves his daughter, has never been able to understand why his wife was never blessed with any takes on the case on the confession of the dying girl. He throws his brother-in-law out of his home and prosecutes the doctor for his crimes.

The doctor is sentenced to fifteen years in a terrific moment in court he throws down his book of professional accounts for the district attorney to peruse. Patient and then heartbroken, he understands and from the other names in the children in the families his wife knows. Many leading clericals, including Rev. James H. Hankhurst, have strongly endorsed the picture.

John Brishen Walker in commenting on the production, at the close of the private showing which was held at the Globe Theater, New York, said: "Here is a motion picture which should be carried to every city and town of the world and thrown on the screen over and over again, until every soul and every eye has had its full significance impressed upon them."

"Wherever my picture is shown tonight and tomorrow for the last time at the Broadway."

Harris Goes East to Inspect Cars

George H. Harris, general superintendent of the San Francisco-Oakland Terminal Railways, left last night for St. Louis to inspect the twenty new street cars being built by the American Car Company, and to arrange all the details regarding the construction of the twelve new Key coaches for the Twenty street service. It is expected that the new cars will reach Oakland about the middle of October and the Twelfth street cars early next spring.

Cured of Indigestion After Twenty Years of Suffering.

"After suffering for twenty years with indigestion and having some of the best doctors here tell me there was no cure for me, I think it only right to tell you of the cure I received. As well as for your own satisfaction, that a twenty-five cent package of Chamberlain's Tablets not only cured me as well as cured me within two months," writes J. L. Proben, 508 Henry St., Houston, Texas. For sale by Osgood Bros. Drug Stores.—Advertisement.

GRAPE FESTIVAL HELPS ORPHANAGE

Kentfield Will Be Scene of the Annual Benefit for Home.

SAN ANSELMO, Sept. 22.—Interest in this community and the Kentfield Orphanage is being kept up by the annual benefit for the home. The festival will be held on the grounds of William Kent's beautiful home at Kentfield on October 7 for the benefit of the Kentfield Orphanage located here. This annual fête has become an event looked forward to by hundreds of citizens from San Rafael to Corte Madera, who take an interest in the success and continued growth of the charitable institution.

Various committees of women are busily engaged in preparing for the festival. Besides an elaborate program of musical and dramatic numbers, there will be tables of fancy work, aprons, candy, toys, dolls, refreshments. A baby show will provide interest and rivalry. Last year's festival netted over \$3000 for the orphanage, and it is expected that this year there will be an even greater patronage.

The Presbyterian Orphanage and Farm was organized in 1895 and from small beginnings has reached a place of importance in philanthropic work. During the year 1915 129 children were enrolled and of these 70 were in the home at the close of the year. The main object of the institution is to provide a home for the orphaned and neglected children of the community.

Manual training is taught to the boys and domestic science to the girls. The older boys also work on the small farm which surrounds the home and thus attain practical knowledge of agriculture. Two teachers, members of the regular school system of Marin county, are stationed at the school and other instruction is given by the regular religious and moral instruction.

The pressing nature of the situation is a new dormitory or sleeping porch for the boys, an adequate supply of water, laundry equipment, a modern drying room for the laundry, a sterilizing machine, a gymnasium or playground for wet weather, money to develop the farm, which is being made self-supporting, and more money for the current expenses of the home.

During the year 1915 \$12,476 was received by the orphanage from various sources and \$12,444 was expended. While the year has started with \$375 of the treasury, it closed with only \$4595 on hand, of which \$3795 belongs to the Grove Memorial Fund for building purposes and \$800 are funds are urgently needed.

A gift of \$75 will support a child, over 6 years of age, for \$30 will support a child of 6 or under for the same period. Persons having children in the orphanage should contribute \$100 a year for each child. But it is often impossible for relations to make these payments, the deficit must be made good by the board.

Tenth Bank Is Forced to Close in Chicago

CHICAGO, Sept. 22.—The private bank of Campbell, Duba & Co., the tenth to fail here in the last month, closed its doors today. Creditors filed a petition of involuntary bankruptcy against the institution, which was opened in the foreign quarter under the name of the Industrial Savings Bank.

The petition gives the liabilities of the bank as \$1,000,000 and the assets as \$200,000, have depreciated so as not to exceed \$600,000.

BUYS GLASSY FALL SUIT ON CREDIT

Advices Other Women to Do Likewise.

"I don't see why anybody who cares anything about how she looks will keep on wearing a suit that's out of date when she can so easily buy a lovely new Autumn Suit at CHERRY'S."

"Dressing well is simply a matter of buying something new WHEN YOU NEED it instead of waiting until you have every penny of your cost. I've traded at Cherry's up-to-date shop for years, and I flatter myself that I wear about as pretty clothes as any woman of ordinary circumstances in town."

"These new Fall Suits are perfectly darling. You simply can't resist their trimness, their charming simplicity, their youthful straightness and their graceful ripple. Cherry's suits are the loveliest I've seen, and, of course, Cherry's Credit Terms are wonderfully convenient."

"Spend a little while 'browsing' through the advance Fall Styles at CHERRY'S. They have one shop where women's suits are carried at 515 13th St. and another beautiful men's shop at 523 13th."

The San Francisco stores are located at 1009 Market and 2400 Mission, and stores are also maintained in Portland, Tacoma, Los Angeles and Sacramento.—Advertisement.

The Easiest Way to End Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft and look and feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Advertisement.

THEY SAW IT IN THE TRIBUNE

"Dead Shot" Not Accepted in Army

ST. LOUIS, Sept. 22.—Rejected for enlistment in the United States Marine

Corps yesterday because the "trigger" and middle fingers were missing from his right hand, Elbert Harlan, an applicant from Oklahoma, went from the recruiting station in the Pullerton building to a shooting gallery nearby, with a Sergeant

and made 25 straight hits on a moving target with a rifle. "I can shoot better with my little finger than some men can with their trigger fingers," Harlan said, "and I cannot understand why you won't take me."

FRIDAY, SEPTEMBER 22, 1916.

WHEN WAR ORDERS CEASE.

Japan has increased her exports to the United States from \$92,000,000 in 1913 to \$143,000,000 during 1916, according to Mr. Julian Arnold, American commercial attache, accredited to Japan. In 1913 this country had a protective tariff. During 1916 the policy was changed and a Democratic free trade measure is now operating, making the United States the dumping ground for foreign goods.

The Japan Gazette states that the net profits in various cotton-spinning companies in Japan during the first half of the present year amounted to \$9,334,412, an increase of \$2,218,325 over a corresponding period last year. According to the latest investigations made by the Spinning Association, quoted by Asahi of Osaka, between January and June ten companies increased their capital altogether by \$11,886,109, producing at the end of June, \$68,876,111, total capital, of which about \$42,000,000 was paid up. The total amount shows an increase of \$8,845,259 in comparison with the end of June, 1914.

The output of cotton cloths from the beginning of the year to the end of May amounted to \$17,400,641, an increase of \$7,976,000, or about 90 per cent. Exports of cotton cloths amounted to \$12,040,271, an increase of \$3,988,000 or about 50 per cent.

Japan's flour-milling industry is now making steady progress. It also grew to an appreciable extent in the business boom that followed the Russo-Japanese War. Before that war, Japan's annual imports of flour amounted to about \$4,985,000, but a few years later the import figures fell to about \$498,500. The Japan Advertiser emphasizes the fact that the progress now being made is more remarkable than the success achieved eight or nine years ago, for Japan has not only been able to dispense with her imports of flour, but is now exporting to some extent. The latest figures of the foreign trade in flour are: Imports, 1913, 37,152,400 pounds; 1914, 26,813,734 pounds; 1915, 4,041,066 pounds; exports, 1913, 84,896 pounds; 1914, 3,639,605 pounds; 1915, 32,913,678 pounds.

These facts are all worthy of the most serious consideration in contemplating conditions likely to exist after the war, when the rush of foreign orders will have ceased. American factories that have been rushed at top speed to care for the needs of warring nations will suddenly stop their activities, and the huge profits stop with them. Instead of ordering from America on a stupendous scale and at any price, the nations of Europe will purchase only the bare necessities until they have an opportunity to recuperate from the financial drain and the millions of trained soldiers return to peaceful pursuits.

When that time comes, which is inevitable, there will be need at the head of this government of a steady hand and constructive brain and the maintenance of a policy that will not be vacillating.

One by one the men who were intimately associated with Lincoln are passing away. John Hay, one of his biographers and private secretary during the war period, died in 1905. John G. Nicolay, who collaborated with Hay in the most authoritative life of Lincoln published, and served with Hay as secretary to the President, is no longer living. With the death in Washington two years ago of Colonel W. H. Crook, there passed another closely associated with the martyred President. He acted as bodyguard to Lincoln and had the proud distinction of serving in an official position in the White House during five administrations. Horace White, noted journalist, whose death was commented upon in these columns recently, acted as the official reporter of the famous Lincoln-Douglas debates in 1854 which lost Lincoln the United States senatorship from Illinois, but through which, as Mr. White phrased it, "Lincoln fell up hill into the presidency." The journalist's intimacy grew out of this close association.

The State Railroad Commission has been called upon by the Northern Electric Railway Company to initiate a rule in California with relation to the value of right of way in fixing reproduction cost. Counsel for the corporation has contended that the utility should be allowed at least the initial cost price, in spite of depreciation since the original purchase. In this connection it may be recalled that as justice of the Supreme Court of the United States Charles Evans Hughes wrote the monumental decision in the

famous Minnesota Rate Case in which right of way values in fixing cost of reproduction were thrashed out by the foremost legal talent in the nation. The exact rule in this case has direct bearing on the California case before the state commission.

RECOGNIZING FORESTRY.

The laying out of a comprehensive course of work for the students in forestry at the University of California represents a distinct effort to make of that department a place for such work as its subject deserves. California is certainly an ideal place for the beginning of a definite systematic attack of certain problems in forestry and conservation which even the Wisconsin and other well-equipped middle west schools have so far had to overlook.

Forestry has gradually drawn, in the academic curricula, to a place where its cognate relation with agriculture has become more evident. Not alone because of forest's bearing on meteorological conditions, which in turn are of supreme agricultural import, but because forestry from all angles and the newest science of "tree surgery" have an intimate relation to floriculture and landscape gardening, the aesthetic side of agricultural studies.

The University of California establishment was based upon the appreciation that agriculture was to be the chief future of California, and that upon the solution of the great problems of her land most of her ultimate wealth would rest. For this instance the university was established primarily as an agricultural college and its charter has never been amended to give it any other inclination. The establishment of the forestry school is a continuance of the living up to that charter.

SYSTEM IN GIVING.

If charity should begin at home, it is most fitting that the administration of funds should be in the hands of the manager of the household. For that reason, as long as the distribution of alms is necessary in our stratified society the municipal concentration of philanthropic assistance in the Associated Charities, as carried out in American cities, is the most economical and efficient method.

The Oakland Associated Charities has just finished another twelve-month of its existence as the intermediary between those in need and those possessing a margin for eleemosynary purposes. The yearly report of the organization shows that a large amount of work has been systematically and carefully performed, and that valuable cooperation has been rendered by the city officials and various individuals and agencies engaged in public welfare activity.

The community gratefully recognizes the efficiency and sympathetic skill with which this work has been done. That this debt of gratitude will be increased in the near future is a certainty, for the scope of the Associated Charities is constantly widening, and its attention is by no means directed solely upon the distribution of money and the furnishing of employment. The organization is rapidly taking its place as a valuable cooperating agent in the task of up-building the more perfect social structure.

When we read that the San Francisco mint has been placed on a 24-hour basis; that instead of working one shift of eight hours it has been found necessary to put on three because of the unprecedented demand for coins, we are inclined to remember the attempt and near success of the proposal to close it three years ago. A Democratic administration, seldom considerate of California and apparently never able to understand situations here—certainly rarely in sympathy with its interests—was going to shut up the country's best equipped mint, located in a gold and silver producing region, without much question or consideration. It took the superhuman efforts of all the representatives in Congress to prevent it, and we are now able to see how well they served their constituents and the country.

A quit claim deed was recorded the other day on the Alameda County records from E. Klumpke to others, involving title to certain properties in Oakland. No man in the State of California has carried litigation more frequently to the State Supreme Court, and incidentally, contributed more to the clearer understanding of real property law in this State than Klumpke. He has long resided in San Francisco and is now a picturesque figure on the street, white-haired and aided by a cane, reminding one of Holmes' figure in the "Last Leaf." The reports of the law courts are replete with cases in which Klumpke has insisted on a rule from the highest tribunal on a legal technicality touching land titles.

Tagore, the dreamer, fresh from conquests in the Orient, is soon to be here. The simple philosophy of joy preached by this son of the rajahs has called for the best thought of Europe and America. His prose has won recognition in high places and in Japan the populace greeted him on his travels with showers of cherry blossoms and garlands of roses. It is an omen of Western culture that Tagore is to stop in Oakland and be received into the homes of our citizens. Culture, spelled with a "c" or "k" is no prude about geography, and distinguishes not between the Back Bay of Massachusetts or the Brooklyn Basin of Oakland.

NOTES and COMMENT

The editor of the Avalon Islander seems to be sore about something, judging from this: "Possibly there are a number of hypocrites leaving town, just as well as 'good folks.'"

Editorial explanation from the Redding Searchlight: "Yesterday's editorial on J. Frank Hanly was rather balled up typographically, but apart from that, it was perfectly pure reading matter."

This is from the audacious Stockton Mail: "They say that one can have anything that he really wants very much. If you missed seeing Langtry when you were a girl you can see her when you are a grandmother."

Chico's later and better claim to fame, according to the Enterprise: "Chico no longer depends upon the memory of the unsavory Slaughter for distinction. A second cousin-in-law of Charles Evans Hughes has his home and is buying almonds here."

Long range political observation from the Richmond Record-Herald: "Hon. Robert Bacon's candidacy for the Republican nomination for United States senator from the state of New York shows that Wall street in this campaign is in politics up to its neck."

The farmers don't like it either. The Educational and Co-operative Union of America, holding its national convention at New Orleans, has adopted resolutions condemning the Adamson eight-hour law. This organization represents 6,000,000 farmers.

Broncho busting is likely to run the movies a close race in Kern, if the statement of the Echo is indicative: "There were more than ten thousand admissions at the recent broncho busting rodeo, practically all of this attendance being drawn from Kern county towns."

Explanation as to how he got there, from the Bakersfield Californian: "A former Chicago newsboy finds himself, at the age of 40, manager of the Boston elevated railway, at a salary of \$55,000 a year. And it may be said without hesitation that his rise didn't just happen."

Coalinga Oil Record gives some figures as to gasoline: "With crude oil at 50c a barrel it costs 8.9 cents to make a gallon of gasoline by the Rittman process, and already twenty factories have been licensed to use that process. There is a wide margin between 8.9 cents, the cost of production by the new process, and the 19 cents the consumer is paying today."

The Hanford Sentinel man appears to have been smugged: "We can forgive the fellow who plays 'So Long Letty' at midnight on a harmonica, and the fellow who blows holes in the atmosphere with his new cornet, but the community boob whom we cannot forgive or forget is the fellow who builds a gas main from his night, filling the air with poison fumes."

Popularity of San Joaquin's farm adviser, according to the agriculturist of the Stockton Record: "The Sacramento Chamber of Commerce has officially sanctioned a plan to secure a farm adviser for Sacramento county. San Joaquin has had a farm adviser for the last two years. Tell the farmers they've got to give him up and see what a storm of protest you'll bring forth!"

Frank discussion of Stockton's chief of police to the Mail. By the way, is a parallel suggested? "Frank Braire, chief of police of Stockton, has been at different times lambasted to a fare-you-well by the press and certain societies. Nevertheless it is fair to say that whatever policies Braire carries out must represent the will of the majority, otherwise he would not be chief of police."

The automobile epitomized by the Colusa Sun: "The automobile, though a new thing in the main, has paid a tremendous amount of money into the public treasury. It has extended the oil business, and worked up many things along industrial lines that were a drag formerly. It has given hundreds of men work, and has scattered the money of the rich out in many channels. It has pauperized many a family."

What d'ye mean—step-ladder? Inquiry is directed at the Colusa Sun, from which the following is extracted: "Well, Francis J. Heney, it is said, will be there. We are apprehensive of Mr. Heney, especially when he carries his step-ladder with him. He nearly always carries one with him to conventions, and should he be at Sacramento, it would be out of the usual for him to be alone, that is without his step-ladder."

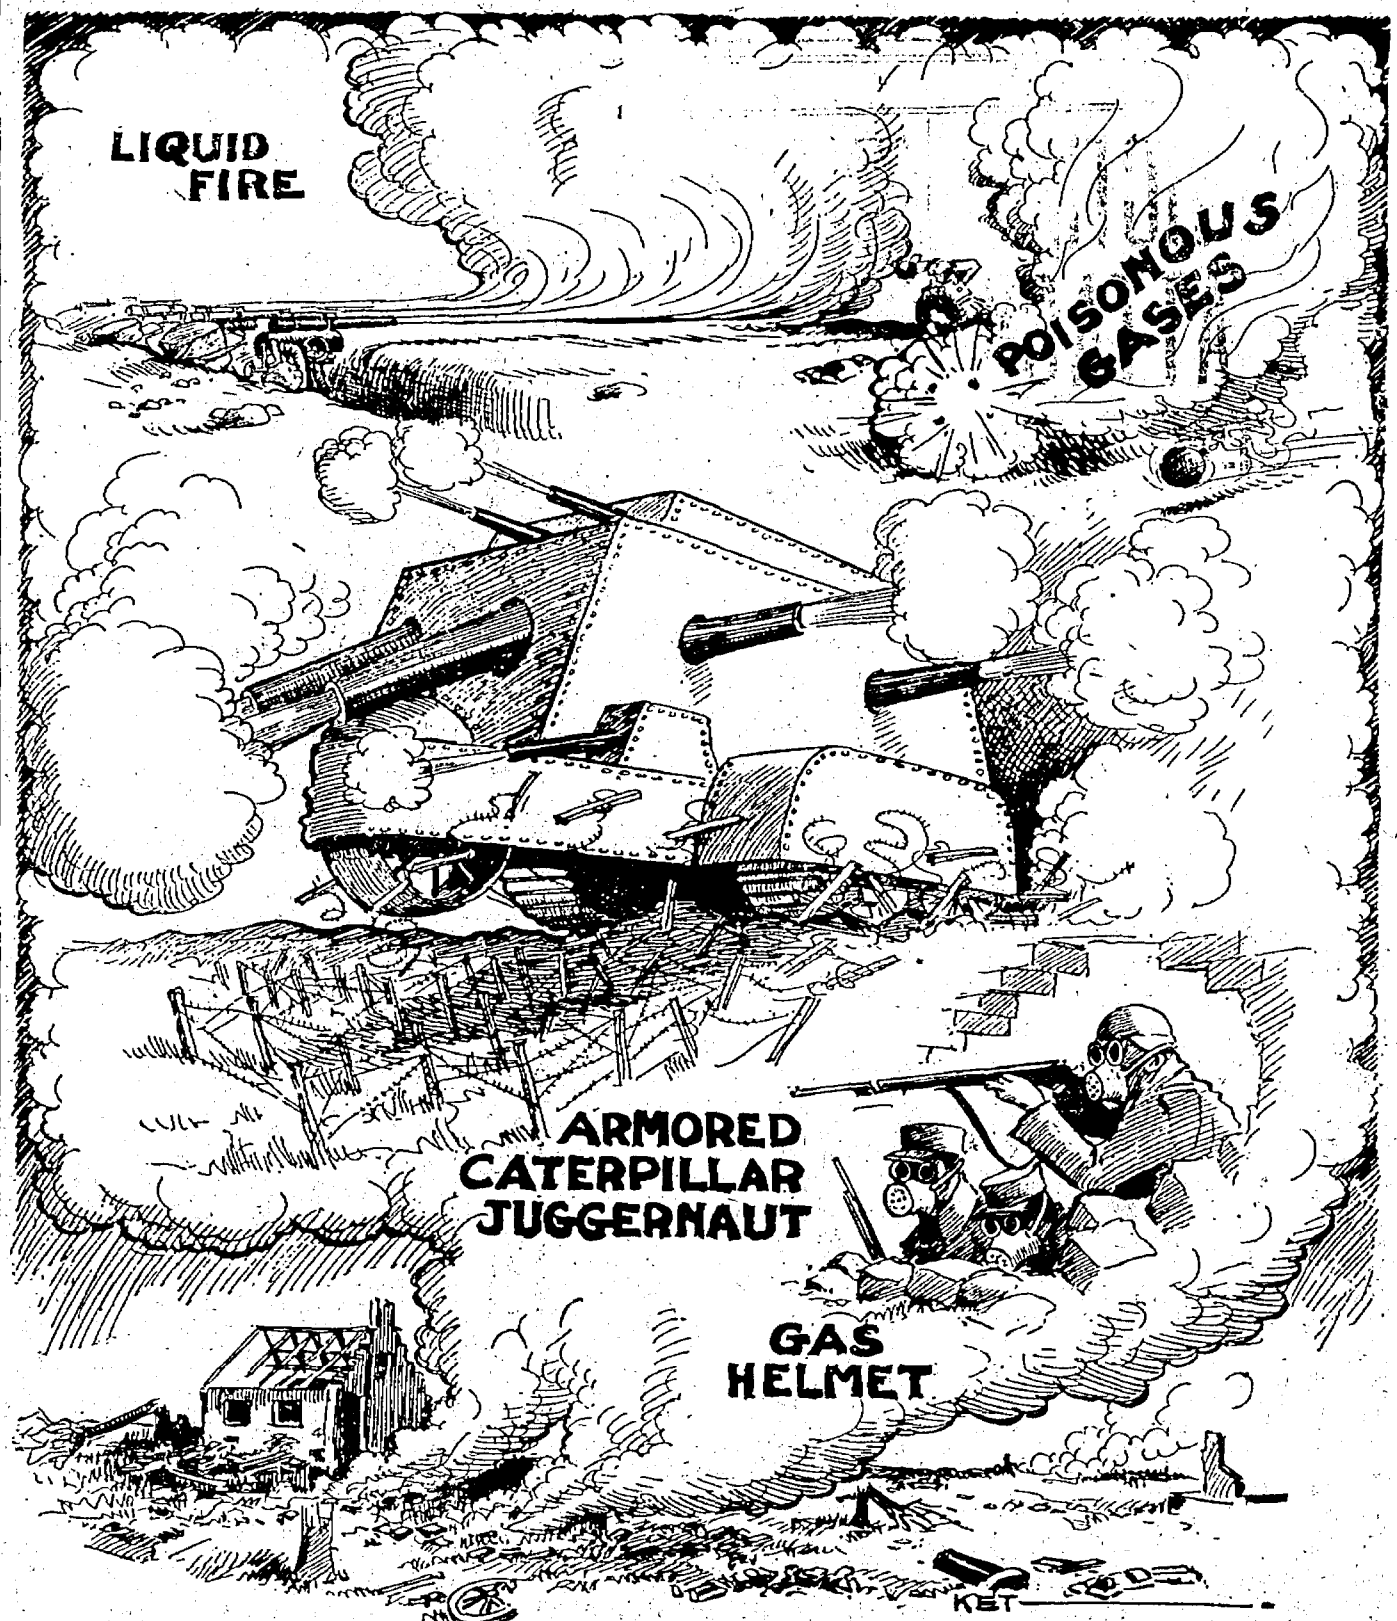

SPIRIT OF THE STATE PRESS

The cruiser Milwaukee, parent ship of the Pacific torpedo flotilla, which is now undergoing repairs at the navy yard, has been ordered to leave here for San Pedro a week from Saturday. The vessel will join the vessels of the reserve fleet in target practice, and will probably return to the yard during October or November.—Vallejo Times.

One of the vexing problems of public school life, which has developed more pronouncedly within the last few years, has to do with the mode of dress among pupils. While the problem affects, more or less, both boys and girls, yet it particularly is developed among girls. In many cities boards of education have adopted definite measures to prevent immoderate dressing among pupils.—San Bernardino Index.

California's seed potato inspector has begun his work. He will save the state millions, just as it is. The appearance of potato pests in parts of the colony upon the planting of the first crop of potatoes shows the mischief the lack of inspection can do. Clean land could only become fouled that way by the use of foul seed.—Atascadero News.

EVOLVED FROM THE GREAT STRUGGLE

AMERICAN RED CROSS.

To the Editor of The Tribune:

A newspaper clipping cut from the Oakland TRIBUNE has been forwarded to me regarding an address that I delivered before the Oakland Chamber of Commerce under the heading "Red Cross Appeal Starts Here." There is one sentence in that clipping which is a gross misrepresentation of what I said, viz: "Clymer asks that all support of the business men be withdrawn from other organizations aiming to give war relief, and that the funds be turned over to the Red Cross."

What I said was "The Red Cross is not a charitable organization and does not interfere with local charitable institutions, and in the case of local organizations appealing for funds for European relief, it would be a wise plan for the local business men to have them thoroughly investigated, because my experience had revealed the deplorable fact that from 10 to 50 per cent of the receipts were used for overhead expenses and salaries. While in the case of the American Red Cross, all moneys contributed for European relief were transmitted and expended without the deduction of a cent for overhead expenses, and furthermore, the accounts of the American Red Cross are audited monthly by United States government auditors and their report thereof is submitted to the public through the medium of the Red Cross Magazine. Many of the leading business men on the Pacific Coast have told me that hereafter they would make their contributions for all kinds of European relief work through the American Red Cross, because the American Red Cross is the only international relief organization recognized by the government of the United States and possessing a charter therefrom."

In justice to the American Red Cross I think you ought to publish this paragraph, inasmuch as your report completely misrepresented or misunderstood what was said.

Yours very truly,
JOHN L. CLYMER,
Director.
Office 502 California Street, San Francisco.

An enamel to glaze pottery without the use of heat is a German invention. The yellow poplar, or tulip, is the largest broadleaf tree in America.

Japanese are said to have invented matches that will light perfectly even when wet.

TWENTY YEARS AGO TODAY

The dedication of the new Masonic Cathedral took place last night at 305 Fifteenth street.

A parlor meeting of the suffragists will be held this evening at the home of Mrs. Lloyd Baldwin on Vernon Heights.

Mr. and Mrs. George H. Tyson have left for New York.

A reception and banquet was tendered the Hon. S. G. Hillborn by the Women's Republican Club last night.

The Entre Nous Dancing Club of East Oakland will hold a business meeting at Washington hall, Wednesday evening.

BENEVOLENT BLACKSNAKE.

In Burlington county, New Jersey, the farmers who, in the erroneous belief that they are a pest, have been killing blacksnakes, are being urged to conserve them as enemies of the rattlers, which have been unpleasantly numerous this year. The damage done by the nonpoisonous reptiles is now recognized to be of slight account in comparison with the good they do. Not only will the blacksnake fight and best the rattler, but he earns more than his keep in keeping down other pests. It has taken man a long time to identify his friends of the lower orders, and even today many persecuted animals do not receive the credit that is due to them.—New York Sun.

GIRL VICTIM OF ATTACK FIGHTS MAN

Miss Blanch Vandeventer Is Struck by Youth, Who Follows Her From Work to Her Home; Insulted and Choked

Pretty Candy Store Employee Drives Unknown Off in a Desperate Struggle in Dark Street; Police Seek Identity

After struggling for more than five minutes with a man who assaulted her within a block of her home at 1835 Alameda street, Miss Blanch Vandeventer, a pretty 19-year-old girl, broke away from her assailant shortly after midnight this morning, and made her escape. She has furnished a description of the youth to the police, and he is being sought.

The struggle occurred within a few minutes' walk of the heart of the city, on Eighteenth street, near the corner of Alameda street. Miss Vandeventer, an employee of a confectionery shop at Thirtieth street and Broadway, was walking to her home at the time. She had seen a man following her, but believing him to be a resident of the neighborhood, home-ward bound, she paid no particular attention to him.

When he followed her into Eighteenth street from Harrison she became alarmed, and quickened her pace. Eighteenth street at this point is no wider than a narrow alley, and is but a block in length. As the girl started to walk faster the pursuing man ran up to her, tipped his hat courteously and asked if he might accompany her to her home. She started to run, whereupon Miss Vandeventer says, he placed his arm about her shoulders, and she slapped him in the face.

The youth then threw his arm about the girl's neck, and attempted to throw her to the ground. She fought with him, striking blindly at his face. To prevent her from screaming the girl's assailant placed his hands about her throat and choked her. Fighting furiously, she wrenched one of his hands and seized the thumb in her teeth, biting deeply into the flesh. He groaned in pain and attempted to will away from her, but she maintained her grip. To free his hand the man struck her brutally in the mouth, dislodging two of her teeth and cutting and bruising her lips.

The stranger again removed his hat, mumbled that he was sorry, and walked away from his intended victim, disappearing in the darkness of Harrison street. The girl ran to her home and telephoned the police. Police Inspector William F. Kyle responded, and a description of the man was given him.

According to Miss Vandeventer, her assailant was very young, less than 25 years old. He was of dark complexion, very large and quite tall. She was unable to describe his clothes.

Catcher Callen Is Signed Up by Oaks

The Oaks signed up a new catcher today. He is F. B. "Buster" Callen, last year with Cleveland. The Indians turned Callen over to New Orleans, but he refused to report there and subsequently induced the Cleveland management to give him his release. This season he has been playing independent baseball in Arizona. Callen will report to Del Howard immediately and will be given a thorough trial during the balance of the season.

HERE ARE EXACTLY NINE HUNDRED LEGS AND NINE HUNDRED ARMS AND NINE HUNDRED EYES MOVING IN UNISON TO THE RHYTHM OF FOUR HUNDRED AND FIFTY EXUBERANT HEARTS. THEIR POSSESSORS PARADED AFTER THE FASHION SHOWN IN THE ILLUSTRATION YESTERDAY AT THE OAKLAND TECHNICAL HIGH SCHOOL.

OAKLAND TO GREET CHICO DELEGATION

Chamber of Commerce Completes Preparations for Big Reception to Be Given Boosters From Sacramento Valley

Preparations were completed today by the Chamber of Commerce officials for the reception of the Chico boosters who, several hundred strong, will arrive Sunday on a special Oakland-Antioch train, for a stay in this city. They will be entertained Monday and Tuesday by the Chamber, a luncheon, an automobile ride, and other features having been prepared for their entertainment.

The train will pull into Oakland about 5 o'clock Sunday afternoon, and a special car will be there to take the visitors to the Hotel Oakland. Secretary J. E. Calne of the Chamber, Secretary Frederic Boese of the Manufacturers' Bureau, and committees from both organizations will be on hand to extend them an official welcome to Oakland.

Monday morning an automobile trip about the east bay region is scheduled for the guests. They will be taken over the Highland Drive and shown various points of interest about Oakland and its environs. At noon a luncheon will be held at the Hotel Oakland, when several Oakland business men and also a number of Chico visitors will speak.

The Chico delegation will also be given an active part in the "Try Oakland First" celebration. The visit of the Chico delegates is a return visit to the Oakland excursion to Chico some months ago when, on a trade excursion, the Manufacturers' Committee visited the Butte County Exposition, and held an Alameda Co. Day, Recent Fresno excursion was another similar trip of the Oakland manufacturers, designed to cement friendship with the interior of the state.

The Chico boosters were officially invited to Oakland in a silk scroll carried to that city by Postmaster J. J. Rosborough, and signed by Mayor John L. Davis. The trip is being made under the auspices of the Chico Chamber of Commerce.

Many Spectators Witness Splendid Work of Boys on Spacious Drill Grounds

Four hundred and fifty youngsters, representing the athletic and gymnastic brigade of the Oakland Technical High school, paraded on the Technical field yesterday morning. With the remaining 1500 students acting as spectators, the youngsters divided themselves into squads of fifty each and proceeded to give an exhibition of calisthenic exercises.

After marching from the gymnasium to the center of the field, Physical Director Cecil F. Martin, formerly connected with the Oakland

U. S. OR JAPAN TO HOLD PHILIPPINES

Bishop of Island Church Tells of Result in Case of Granting Independence.

NEWPORT, R. I., Sept. 22.—Bishop Charles H. Brent, head of the Episcopal Church in the Philippine Islands said in an address here that if the United States withdrew from the islands Japan in self-defense would have to assume control. He said in part:

The protective service rendered by the American flag to the Philippines is a benefit of great issue. Peace has reigned in the islands since the establishment of civil government. The people have had unobstructed opportunity to develop the art of self-government under the guidance of a great nation.

If it were withdrawn our protection Japan would be forced, in self-defense, to assume control. As long as the United States stands sponsor for the Philippines, Japan will make no effort to change the status quo.

The Japanese will never make the Philippines an issue with the United States. In the same position as Japan, America undoubtedly would adopt the same attitude.

Los Angeles Banker Will Head Society

CINCINNATI, O., Sept. 22.—E. G. McWilliams of Los Angeles was elected president of the American Institute of Banking in convention here today.

PORTUGUESE NAME LODGE OFFICERS

Ladies' Auxiliary U. P. P. E. C., Banquet and Toast Its Honored Members.

Oakland women were installed into offices of the Ladies' Auxiliary, U. P. P. E. C., at the final banquet and installation of officers, the marrying of Mrs. M. C. Maria assuming the presidency of the organization, Mrs. A. D. Fonseca the secretaryship, and Mrs. M. C. de Soares the charge of treasurer.

The state-wide Portuguese organization has been assembled in convention at San Rafael for the past week, and installation of officers was served for the last night of the annual meeting. Other women from Oakland and the bay region who were installed into their new positions include master of ceremonies, Mrs. M. Costa, San Leandro; inside guard, Mrs. L. Vierra, Oakland; outside sentinel, Mrs. K. Thomas, Oakland; directors, Mrs. M. A. Deus, Mrs. E. nos, Mrs. F. Laurence, Oakland; Mrs. M. P. Smith, Hayward, and Mrs. G. Gomez, San Jose.

Mrs. H. Goulard of Ceres assumed the position of vice-president during the ceremonies. Mrs. M. Smith of San Rafael became the new marshal, Mrs. R. Diaz, San Rafael, pianist, and Mrs. L. Mattos, San Rafael, completed the list of directors.

School of Jurisprudence banquet, Hotel Oakland, 6:30 p. m. Alameda Elks visit Livermore lodge, evening. Young people of First Baptist church entertain, church rooms, evening.

Supplement Filed to Divorce Complaint

SAN FRANCISCO, Sept. 22.—Mrs. Dixie Marsden obtained permission from Superior Judge Flood this morning to file a supplemental complaint to her action for divorce against Dr. Alfred R. Marsden, a local dentist. This action was due to his charges contained in a cross-complaint, in which he alleged that she had told him he was sorry she had ever married him and that she wished she had married a better looking man. He also claimed that she had said he was beneath her dignity.

KISS TEST IS SUPREME IN LOVE'S NET

Minister Gives Girls Hints on How to Capture Men in the Strategy of Hearts When All Might Otherwise Be Lost

After many years of service under Daniel J. Cupid, himself, and following the experiences of giving ministerial blessings to more than 4000 couples, newly married, Rev. John H. Pierce today issued a list of rules for the love-love. But three months and a fraction remain of 1916's leap year, and it will take four years more for matrimonially inclined young women to throw the proposal book into the hearts of potential mates unless they propose now. Therefore, the marrying man of Oakland believes that ten rules—or commandments—issued from the office of Ralph C. Hymen, himself, who is always pictured in Greek mythology as leading the marriage procession, will not be out of order.

After thirty years of experience and a good many years more of similar experience by his employers, Cupid, Hymen & Co., Unlimited, Rev. Pierce issued the following for girls, maids, young women and spinsters. He believes that if the rules are followed husbands will fly around in the air just like moths wander smack into the candle flame. The rules of the great game are as follows:

1. Plan your campaign with the wisdom of the serpent, conceal it with the silence of the clam, execute it with the strategy of a Machiavelli.
2. Avoid all witicism about marriage as a burglar would a burglar.
3. Veil with alluring helplessness the iron of self-sufficiency.
4. When a man declares, "I shall never marry," mark him for easy prey.
5. Be inwardly bold as a lion; outwardly timid as a young fawn.
6. The loudest flattery is the silence of attention. When he speaks, listen. It is license to his pride.
7. Shun the rouge pot and the powder puff, for many a maid has lost out by sailing under false colors.
8. Pick out a chemical affinity. Remember that oil won't mix with water, but it will with myrrh.
9. Copy the cat, for it is squeezable, and the dove, for it coos incessantly, and the whip-poor-will, for it seems elusive.
10. Remember that the supreme test of a man is a kiss. If he will not yield under its pressure, scorn him; he is either a brute or an idiot.

Insurance Firm Shows Oakland Prosperity

"I believe in Oakland and in the prosperity of Oakland," so says J. F. Carlston, president of the Central National Bank of Oakland and President of the Vulcan Fire Insurance Company of Oakland. He exhibited a financial statement of the latter company with more than \$7,000,000 in assets and over \$100,000 in cash. This company, which has as its officers, besides Carlston, E. S. Wagganheim, vice-president; Arnold Hodgkinson secretary; B. F. Cotton, assistant secretary and E. D. Bothwell, treasurer, is the only company of the kind operated by Oakland men.

The officers express great satisfaction at the showing made during the four months that the company has been in operation.

Grocers Start to Halt Exportation

Circulate Petition for Congress Call

NEW YORK, Sept. 22.—Petitions asking the President to call a special session of Congress to meet the increasing cost of food by placing an embargo on foodstuffs exportation were distributed today among some 30,000 grocers, bakers and other small dealers throughout the city. Efforts will be made to get the petitions signed by 1,000,000 consumers. The Master Bakers' Association, which launched the movement here, has decided to make a nation-wide campaign.

CHICAGO, Sept. 22.—Housewives of Chicago were called upon today to attend a mass-meeting at which organization will be perfected to fight increases in the prices of foodstuffs.

FLORIDA BANDITS BELIEVED PENNED

Fight Impending on Island Between Posses and Slayers of Three.

MIAMI, Fla., Sept. 22.—At least two of the four bandits who robbed the State Bank of Homestead, Fla., of \$6000 are believed to be surrounded today on Key Largo, an island south of here, covered thickly with sub-tropical underbrush.

Only two of the bandits have been seen since Saturday, when three possesmen were killed and another wounded in a running fight. It was believed last night all four had fled into the everglades.

ALL READY FOR OAKLAND FIRST WEEK

Industrial Exposition to Open Doors of Array of Hand-some Booths and Excellent Display of Home Products

Commercial Travelers Will Be Present and Handle Ceremony of Opening; Chamber Anticipates Huge Attendance

Final arrangements for the Industrial Exposition to be held in the municipal auditorium during "Try Oakland First" week which begins tomorrow evening and continues for a week, are being completed today. Practically all of the floor space of the auditorium arena has been taken by manufacturers from all parts of the country.

Each of the scores of booths has been decorated for the week of the exposition. Most of the decorations were installed by one firm, with the result that a universal color scheme and design has been carried out throughout the building, which will appear as a festival ground when the official opening occurs under the direction of officers of the Chamber of Commerce and the United Commercial Travelers, under whose auspices the two industrial movements are to be held.

George Fitch and other officials of the United Commercial Travelers, and members of the Manufacturers' Committee of the Chamber of Commerce will officiate at the opening exercises.

SCOUTS TO DRILL
The Exposition at the auditorium is giving the Oakland Council of the Boy Scouts of America an opportunity to show every boy and every boy's parents why he should be a Boy Scout first, last, and all the time.

With the opening tomorrow the first official exhibit of what the scouts do and stand for will be presented to the public in a novel and interesting manner. Real scouts in a model camp scene will daily illustrate the scout activities and on Tuesday, Boy Scout day, from three to nine p. m. they will present visitors with rope novelties tied into novelties to symbolize the scout idea of the good turn daily.

Boy Scout day will be celebrated with all the various activities in which the boys excel. From four until six o'clock one hundred and fifty scouts will give demonstrations in the main arena. At 6:30 all the troops will assemble in the Lake Merritt park opposite the auditorium, where boys and scoutmasters alike will participate in a genuine camp feed, cafeteria style, "everything hot for a dime."

NIGHT DEMONSTRATIONS
In the evening the demonstrations will be continued until 7:45 when the five-reel moving picture, "Adventures of Boy Scout," will be shown free of charge in the auditorium theater. This drama of a boy's life as it is followed from the slums to the honored ranks of the Boy Scouts is replete with thrilling escapades and situations and at the same time gives a very good idea of the scout movement.

Sale of Polish Dollar to Aid War Sufferers

SAN FRANCISCO, Sept. 22.—"Have you a refugee doll?" is the question of the day in social circles in this city. It is the sale of the quaint little dolls made by Polish artists which has opened this morning by Mme. Fiedorowicz, wife of the famous pianist, they have already become a fad.

Confetti Battle Ends Salinas Valley Fair

PASO ROBLES, Sept. 22.—With a final confetti battle and street carnival, and an illuminated airplane flight, the Upper Salinas valley fair will come to a close at midnight tomorrow. The fair has been an unqualified success, and the exhibits, races, Wild West features and attendance were all beyond the expectations of the management.

HUNTER SHOT FOR DEER.
MEDFORD, Ore., Sept. 22.—George Van Auker, guide and farmer, was taken for a deer Wednesday afternoon on Union Creek and was shot through the cheek while wearing a red hat and sweater. He was hunting with a party of Klamath Falls hunters. He had been shot in the face, struck a bone, doctors say, death would have been instantaneous.

RESINOL PROVED WONDERFUL FOR ITCHING ECZEMA

Sept. 23.—"I had a chronic case of eczema on my hands for about three years. It got red in places, especially between my fingers, and when I'd rub them a little, pimples or blisters would form which filled with water. The longer I had this trouble, the larger these pimples got. I can't express in words what a terrible thing it was. I couldn't find anything to help me—everything seemed to do it worse. I had about given up all hope of ever being cured. They were terribly sore, and I could not sleep for the terrible itching and burning. I learned of Resinol Ointment and Resinol Soap and decided to try them. Well, Resinol really proved to be a wonderful thing in my case. It relieved at the first application. I used about a cake of Resinol Soap and half a jar of Resinol Ointment and the eczema was all gone. It hasn't returned, since. I am so glad I tried Resinol Ointment and Resinol Soap, as I did not know how I could have stood that for so long. (Signed) Mrs. H. H. Denbow, Sioux Falls, S. D.

All druggists sell Resinol Ointment and Resinol Soap. For sample, write to Dept. 7-S, Resinol, Baltimore. —Advertisement.

Watchers See 2 Incinerated Auto Mishap Ends in Awful Deaths

SARVESTON, Tex., Sept. 22.—Seven persons, persons helplessly watching two men burn to death beneath an overturned automobile that went over an embankment shortly after midnight last night, causing three deaths. The tank exploded and the flames spread so rapidly that the crowd was unable to pull the victims from beneath the wreck.

SUPERVISOR SCORES INFIRMARY METHOD

(Continued From Page 10)

to meet the actual needs. He said that the policy of erecting the units piecemeal, instead of erecting, subjecting some to hardship and to deplorable conditions while others were well treated, and in letting the first units run down and depreciate through overcrowding, so that when the final units were completed the inmates would be almost as bad off as are the present structures. He said:

As chairman of the hospital committee I have had the highest alms to bring about the necessary betterments to remedy the shameful conditions that exist today. In some of the remedies I hoped to put in I was successful. In some I was not.

LOW TAX RATE DEMANDED.
It is the great desire of everybody to keep the taxes down. I do not think it is right, however, to keep them down at the expense of the welfare of these poor inmates of our infirmary.

It has been planned to build one or two units of the institution each year. But if this course is adopted, it will be ten or twelve, or maybe fifteen, years before the present plans shall have been completed. In the meanwhile we will still be keeping the inmates in old, unhealthy, insanitary and overcrowded structures, and at the same time the first units will be falling rapidly into a like condition.

We have about 700 inmates there now, and there will be 800 or more this winter. You cannot turn them away. We must find some hook to keep them in.

PLACE CONGLOMERATE.
The majority of the inmates of the infirmary are not sick. They are old and beaten in the struggle; some of them permanently disabled. There is, therefore, the natural objection to the hospital and the infirmary, or rather, home, being together in the same location and under the same management. This objection is valid. The two kinds of work, the two functions are essentially different.

This has brought about the plan to separate the hospital and the home and to bring the hospital down to Oakland. The "city members" of the Board of Supervisors want to do this. I am half way between. I think that perhaps the land we own out at the infirmary could be utilized for a separate county hospital. However, I am ready to place that before the voters at the next general election and to have them govern our actions in the matter. But something must be done. The situation has been allowed to get worse and worse, and to drag along too long.

WORK UNDER HANDICAP.
The management at the hospital is working under a grave handicap. Orders can be issued that before the voters at the next general election and to have them govern our actions in the matter. But something must be done. The situation has been allowed to get worse and worse, and to drag along too long.

I asked Dr. Willis if he could not keep out the flies. He said he had tried, but he could not do so, that the flies would congregate around the institution. Supervisor Hoyer gave a detailed account of a visit he had made the past few days to the San Francisco Relief Home for the indigent poor and aged and to the San Francisco county hospital. He said that in the Relief Home, where there are some 1400 inmates, conditions were but little better than in Oakland.

HERE IS EFFICIENCY.
Hoyer described the San Francisco hospital as the finest institution of its kind in the United States, perhaps in the world. He described the cleanliness, the precision and efficiency in the management, the perfect wards, operating rooms, kitchen, dining room and other sections of the building, which cost \$3,500,000. He said:

I wish we could build a hospital anything like as good here. The patients are mostly working people; people who cannot afford hospital care, but who must have it; people who are useful to the community, and whom the community, for its own welfare, should keep from being destroyed by disease and injury. Many of the people who need such care in Alameda county we do not even care at all under present conditions.

HARD TO GET NURSES.
They have 140 nurses and a score of graduate nurses at that great hospital.

But it is hard to get nurses to go out to our infirmary. How can you expect nurses to go to such a place? Of course, we give them clean quarters, but they are only little shingle cottages, not up to standard at all.

There are only the two inmates and the resident doctor, who is also superintendent of the home. There is not as much individual care of the sick as there should be. The inmates should be kept cleaner.

We are paying only 52 cents for each patient at the infirmary. It is too little. There is a constant demand for lowering the taxes. But the cost of caring for the patients in the San Francisco hospital is \$1.62 per capita. We are sacrificing the health and well-being of these poor people out at the infirmary to keep down taxes.

Supervisor Hoyer was asked many questions concerning the leper camp, the segregation of contagious diseases, the crowded dormitories and other infirmary matters.

"I want you to know what the conditions are," he said, "so that you will back up the Board of Supervisors when we attempt to better these conditions."

RATE FIGHT DATA BEING COMPILED

Merchants Planning for Hearing of Charges of Carriers.

Preliminary work in the assembling of data to be used as evidence before the Interstate Commerce Commission in a fight to ward off immediate action toward vacating of the decision of that body that the old terminal rates shall stand was started today by the traffic committee of the Chamber of Commerce. In executive session today the committee looked over the evidence and figures of shippers now before that body and went deeply into the nature of additional evidence necessary to be presented in its representations to the railroad body at Washington.

RATE IN DANGER
The immediate necessity arises out of the fact that the order, passed by the commission, postponing the change in rates, which will work untold hardship on Oakland shippers, is in danger of being vacated. It was to have effected a postponement of the new rates until the end of this year. Representations have since been made to the commission, however, with a view to getting this order vacated, that the new rate order may go into effect at once, before Oakland's protest may be heard.

The new rates would raise freight on almost every commodity shipped into Oakland. The fight against the rate is regarded by the traffic committee as being second in importance only to the terminal rates of differential freight, which the committee is now actively engaged.

FORMS TO BE FILLED
Printed forms for taking actual information from every business man as to how much the freight rates will cost him in dollars and cents, and how they will affect his business, will be circulated within the next few weeks, and the figures from these will be the basis of the contentions of the Oakland chamber. It is estimated that an increase of 100 per cent on raw materials brought from the east would be the result of the new rate. This would practically doom Oakland's factories to failure, it is declared by manufacturers.

The evidence will probably not be completed for several weeks, but partial reports will be sent on as soon as possible in an effort to hold over the vacating order until full data can be placed before the board.

Emil Pohli, Noted Lawyer, Passes Away

SAN FRANCISCO, Sept. 22.—Emil Pohli, Vice-Consul for Switzerland in San Francisco and a resident of this city since 1883, is dead of pneumonia at St. Joseph's Hospital. Pohli was 54 years old. He is survived by a widow and two sons, one of whom is a student at the University of California and the other a pupil at the Catholic High School.

Pohli began the study of law in this city in 1897. At the time of his death he was associated with the firm of Lindley & Elchert. He was a candidate for Superior Judge in 1912, but withdrew from the race after he had been nominated.

EDDY PLAYING IS MARVEL OF BEAUTY

Harp and Organ Blend at Recital Given in Oakland.

By RAY C. B. BROWN.

There is something in the appearance and manner of Clarence Eddy, as he takes his place before the manual, which reminds one irresistibly of Robert Browning, and one expects to hear an inevitable recital of Saluppi's come pealing from the pipes. Instead there came last night as the prelude for his recital in the First Presbyterian Church one of Johann Sebastian's glorious fugues—a fugue that began with simplicity and modest statement of theme and ended by storming the ramparts of heaven with thunderous clamor.

To speak of Clarence Eddy's technique and interpretative power is as superfluous as to praise a sunset. One takes them for granted, and proceeds to enjoyment. The program presented was one particularly adapted for tasting—from the mellifluous "Nightingale and the Rose" of Saint-Saens to the acid dissonances lurking in R. S. Stoughton's Egyptian Suite.

That suite, from the pen of an American composer, is a very remarkable work, rich in material, atmospheric and unusual in thematic presentation and development. It might, without exaggeration, be called an orchestral tone-poem for pipe-organ. It is in four movements of linked harmonic modes, and is virtually a masterpiece of symphony evoking the spirit of ancient Egypt.

The sense of mystery that broods over the first movement, "The Pyramids," is Debussyan in its transcendent quality, and space. A haunting weirdness is repeatedly suggested by close harmony on one of the woodwind pipes—a reedy yet metallic effect that can be accurately designated as a snoring gong. The themes are short, broken and suspended, but the effect is that of motionless and untired waiting, which is enhanced by the closing phrase—a triplet as airy as the flirt of a swallow's wing over the capstone of Cheops.

A complete analysis of the suite would fill two columns, but mention should be made of the closing movement, "Rameses II." The shouting chords and clashing seconds of this quasi-marcia section are the very epitome of the self-laudatory inscriptions on tomb and steel left by the delicate Pharaohs.

Miss Zhay Clark, the talented young harpist, gave the audience an opportunity to hear the unusual and beautiful blending of organ and harp. The piano and harp in ensemble only make a duet, for what is a piano but a harp enclosed in a box and beaten with padded hammers? With orchestra, the harp is merely an additional stringed instrument with longer vibrations. But the harp-organ combination is one seraphic in its shimmering and breathing harmonies.

ELECTION CONTEST HEARING.
Hearing of the election contest brought by Fred B. Stewart for the Republic nomination for assemblyman against Frank Anderson in the Thirty-ninth district, will commence before Superior Judge Milton T. Farmer tomorrow morning. The case in this contest in the precincts of the district will be recounted in court.

Saloons at Capital Barred to Troopers

SACRAMENTO, Sept. 22.—The camp of the Fifth California Infantry is very wet today as the result of a downpour of rain, but considerably dry as far as the downing of intoxicating drinks is concerned. Following two riots between soldiers and negroes, Colonel Burtt issued an order that all soldiers entering saloons would be arrested. A "deadline" has been established and soldiers are allowed only in certain sections of the city.

Patriot Walks 150 Miles to Colors

PORTLAND, Me., Sept. 22.—Clifford Greene of Company 71, Dover, walked from Elm Stream to Greenville, Me., a distance of 150 miles, to join his company. He was working in the woods when he heard of the call to join, so set out on foot.

Life Sentence to Erstwhile Bandit

CHICAGO, Sept. 22.—Charles Bunworth, an alleged automobile bandit, was found guilty by a jury today of the murder of John Slomski, a private banker, who was shot to death in an attempted hold up eighteen months ago. Bunworth was sentenced to life imprisonment.

Edison Mazda Electric Lamps

Made in Oakland

TODAY, the country over, the buying power of the dollar spent for electric light has been multiplied three-fold through the economy and exceptional efficiency of Edison Mazda Lamps.

Using the same amount of current as ordinary old-style carbon lamps, EDISON MAZDA LAMPS will give you three times their light.

To secure the fullest economy you should have them in every socket.

EDISON MAZDA LAMPS (Made in Oakland)

There is an EDISON MAZDA for every purpose—in home, office, store and factory—from the tiniest glow up to the powerful illumination of the gas-filled lamps of almost 200 candle-power.

For the Best Light Use Only 115 or 230-Volt Lamps Don't Take Substitutes

Sold by Local Dealers

Pacific Gas and Electric Company Alameda County District THIRTEENTH AND CLAY STREETS, OAKLAND Allston and Milvia, Berkeley and Suburban Offices

By wire from Southern California, today came news of the wedding in Hollywood, this morning, of Mrs. Blanche L. Boardman, widow of the late millionaire, Joseph Boardman, and Ernest D. Porter, prominent clubman and member of one of the well known old Alameda families. The ceremony was a very quiet one, witnessed only by a few intimate friends.

The bride is one of the handsome matrons of Piedmont where, for several years, she has made her home at the old Butters place in Hillside street. Since the death of Mr. Boardman she has spent much of her time in traveling and in study. Ernest Porter, who is engaged in the lumber business, is the son of Mr. and Mrs. A. W. Porter of Alameda, and is one of the popular members of the Bohemian Club of San Francisco and the Claremont Country Club.

The ceremony was performed by Rev. Ray Carter, former assistant pastor of the First Congregational Church of Oakland.

There will be a large contingent from this side of the bay at the tea dance that is to take place at the Palace hotel on the afternoon of October 14, under the auspices of the San Francisco chapter of the American National Red Cross. This big affair is to raise funds to purchase materials for the hospital service.

The American Red Cross has inspired all manner of quietness this summer throughout the United States, and at each society has turned out generously. The local chapter has a brilliant program and ball last month and San Antonio a little later was thrilled with a sensational and gorgeous Spanish fair and ball that brought forth a number of society women who are visiting there for the fun that is quickening the border. Mrs. Frederick J. Ward, who was then the house guest of Mrs. Harry Landis of New Braunfels, was a striking picture at this fair in a magnificent Spanish shawl, as she presided over a cigarette booth.

Any number of distinguished persons, especially of the service set, are to be guests of the tea dance. Among them are Mrs. Elmore Earl's engagement to Ransom Henshaw, Miss Goodall, who is to marry Walter Van Dyke of Los Angeles, and Miss Suzanne Greenwood are the other two of the group.

All three are noticeably pretty and are favorites of their set, so that there will be a brilliant round of entertaining to make their engaged days pleasant. Miss Earl, who has several months more to "go" at college, is a tall and beautiful girl, the daughter of Tyler Henshaw and a brother of little Miss Ida Henshaw, who will make her formal bow to society next month. Mrs. Pearl Cavston Fillmore and Miss Dorothy Cawston are his step-sisters.

Miss Earl will be too occupied for the rest of the month in preparing her degree at the University of California to accept many social attentions, but many to-be affairs are being planned in her honor.

Mrs. William Thornton White was hostess today to the members of one of the exclusive card clubs at the organization meeting this afternoon. The guests included Mrs. Edward Lacey Brayton, Mrs. Tyler Henshaw, Mrs. Nelson Howard, Mrs. George Hammer, Mrs. Harry Smith, Mrs. Lyman King, Mrs. Charles Bates, Mrs. Frederick Diekmann and others.

In honor of Miss Lella Ewing, one of the popular brides-elect of the autumn, Mrs. Thaddeus Signorey was hostess at an informal luncheon today at the town cafe, and at a matinee party afterward at the Orpheum.

Those invited to the affair were a dozen of the younger matrons and girls among them Miss Ewing's sister, Mrs. Joseph Hunt (Grace Ewing), and her cousin, Mrs. Vera Ewing (Miss Ewing). Others were Miss Helen Van Slyke, Mrs. Alice Burdick, Mrs. Bertram Hieby, Mrs. Charles Schwan, Mrs. Gladys Cotter, Mrs. Earl Alexander, Miss Ewing (Perry), Miss Margaret Kennedy and Miss Jean Kennedy.

In honor of Miss Ruth Tidale, whose wedding to John Parker will be an interesting event of October 7, Mr. and Mrs. Joseph Knowlton will entertain half a hundred of their young friends on Saturday evening, September 30. Miss Tidale is an exceedingly popular Alameda girl, the daughter of Dr. and Mrs. C. T. Tidale.

The Junior branch of the Baby Hospital Association met yesterday afternoon at the home of Mrs. John Maxwell to exhibit the results of the week's work in decorating miniature furniture and in designing bird-nests for the Baby Hospital fair next month.

Wednesday was the second anniversary of the opening of the hospital and the group of prominent Oakland, Alameda and Piedmont women have been so devoted to work for their pet institution felt extremely tired.

**Use Coconut Oil
for Washing Hair**

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain coconut oil (which is pure and entirely greaseless) is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulled coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last every one in the family for months.—Advertisement.

**Woman Seeks End
Of Two Marriages**

**Both Undesired Hus-
bands Named Hill**

OKLAHOMA CITY, Okla., Sept. 22.—Suits for divorce from two husbands of the same name filed by Mrs. Maggie Hill are pending today in district court. Mrs. Hill filed the suits yesterday, seeking absolute divorce on the grounds of abandonment and non-support from the one, Cyrus Hill, and an annulment of the marriage to the other, Tony Hill.

MRS. FREDERICK BORDWELL, one of several guests from this side of the bay at an interesting informal tea this afternoon at the studio of Miss Isabel Percy in San Francisco. She is better known as Mrs. Georgia Bordwell, the water color painter.

FREDERICK BORDWELL

unphant when they looked over the statistics showing how many had been helped by their indefatigable efforts. Mrs. Duncan McDuffie and Mrs. Samuel Markes have led most of the campaigns for the hospital, but nearly all of the women and girls of the society have assisted to the limit of their interest in other worthy institutions.

This year their fair falls in October, the month pointed upon later for almost every big charity event of the autumn on both sides of the bay. Nevertheless it is expected to be a brilliant and most successful enterprise, just as it has been for the past two seasons—and more so.

The Hillside Club has announced a series of three dances to take place on Saturday evening of this week, October 14 and the evening of November 18, all for the benefit of the club. There are to be cards for the dances, and the proceeds of the dances will be used for the purchase of the building committee, Mr. and Mrs. R. L. Underhill, Mr. and Mrs. R. Moore, Mr. and Mrs. E. A. Blockinger, Mr. and Mrs. William Leland, Mr. and Mrs. Arthur D. Lockwood, Mr. and Mrs. Russell W. Osborn and others.

Several of the gifted matrons of Berkeley society will take part in a novel entertainment to be given on the evening of October 26 at the Twelfth Century clubhouse in Berkeley for the benefit of disabled French and English soldiers. Mrs. Thomas Arthur Hinkley, who is fitted for a career as a professional singer, is one. Others taking part or assisting in arranging the program are Miss Amy Hinkley, Miss Lella Ewing, Miss Austin Sperry, Mr. G. W. Weeks and Leslie Taylor, who has been heard at several other big charity affairs.

Another fund that has been started—but that is not to be glorified with a cabaret or any other festivity—is a "baccaro" fund for the Belgian soldiers. Mrs. E. S. Fenton of Piedmont is the chairman, while Mrs. W. M. Beckwith is to be one of her assistants.

Miss Marjorie Nicholson, fiancée of Harold Danforth, was the guest of honor today at an informal afternoon of conversation and tea given by Miss Claire Danforth at her home in the Lakeside district.

Those who shared Miss Danforth's hospitality were Mrs. Edith Wilson, Miss Katherine Bousfield, Miss Sybil Conklin, Miss Holly Mallett, Miss Adele Scott, Miss Frances Whitwell, Miss Selma Luwek, Miss Carol Fardoe, Miss Madeline Pardee, Miss Mildred Spook, Miss Eulita Galpin, Mrs. Grant Lohman (Katherine Ziegenfuss) and others.

A number of matrons were entertained at a bridge given this afternoon by Mrs. E. N. Ever in honor of Mrs. Mary Childs, who will return from an extended trip through the Grand Canyon and several of the national parks.

Mrs. Frederick Thurston Robson will be a luncheon hostess next Wednesday in honor of Mrs. Frank Wickman, whose marriage to the well-known musician created quite a stir in Berkeley yesterday. A dozen guests will enjoy this affair, which will be given at Hotel Shattuck.

At the card party given at the home of Mrs. Walter D. Morgan on the afternoon of October 13 for the West Oakland Home Doll Show that will be a big charity event this autumn. Novel prizes are being planned for the winners of the day.

Mrs. Frank F. Holmes of Fruitvale was hostess last Wednesday at a luncheon at

Cartoontime Story

It was very hot down at the seashore, where Uncle Wiggly Longears, the rabbit gentleman, and Nurse Jane Fuzzy Wuzzy, the muskrat lady, housekeeper, were spending their vacation.

It was so warm that if you had dropped an egg into the water, close near shore, of course, where the sharks couldn't play tag with it, why that egg would be hard boiled in no time. And, if you dropped a hamer egg on the sand, why it would have been fried so soon that if Daddy had wanted to catch the 3:55 o'clock train from the seashore, he would have had it for breakfast.

It was very warm, even in the cool, green seaweed and seashell bungalow that Uncle Wiggly hired for himself and Miss Fuzzy Wuzzy.

The old rabbit gentleman put on his thin, white coat, took his big straw hat down off the piano and started for the front door.

"What!" cried Nurse Jane. "You are not thinking of going out on a hot day like this, are you, Mr. Longears?"

"Such is my intention," said the rabbit uncle, speaking punctiliously like.

"Where are you going?" Nurse Jane wanted to know.

"To get some coolness down at the store," answered the bunny uncle.

"Coolness?" cried the muskrat lady. "Do you mean ice cream cone coolness?"

"Better than that," answered the bunny. "I am going to buy an electric fan, such a faner egg on the sand, why it would have been fried so soon that if Daddy had wanted to catch the 3:55 o'clock train from the seashore, he would have had it for breakfast."

"Good!" cried Nurse Jane. "An electric fan will be fine. Get a big one."

"I will," Uncle Wiggly promised, "though to make a cool breeze for both of us."

So Mr. Longears went to the electricity store, where they kept toy trolley cars and whenever you asked them, to take on passengers.

"A big breezy electric fan!" cried Uncle Wiggly in his tally voice.

"You shall have one," said the Polar Bear, who kept the electric store. And he gave the bunny gentleman a nice, big, shiny one that went around whizz-ee-zy as fast as a pinwheel.

Uncle Wiggly took the fan home with him to the seaweed and seashell bungalow.

"Now for some cool breezes!" he cried to Nurse Jane. "We won't be warm any more."

Uncle Wiggly started the fan going, and at first it whizzed slowly, making a noise such as would hardly blow a boy's kite in the air.

"Is that all the faster it can go?" asked Nurse Jane, who was so warm that she had to use her fan herself, first having tied a bit of cabbage-leaf to it.

"Oh, no, I can make the fan go much faster," said Uncle Wiggly. He pushed on the little button, and all at once the fan went as fast as an ice cream cone melts after it falls on the sidewalk on a hot day.

"Ah, that is grand!" cried Nurse Jane. "Cool part of the seaweed bungalow and enjoyed the breezes of the fan."

UNCLE COMES TO RESCUE.

After a little while the bunny gentleman was beginning to feel sleepy. He heard outside the bungalow on the beach some one saying:

"Well, Gizzel, dear, I can't help it if the merry-go-round isn't running."

"But you promised me a ride on it, and I want you to have some fun!" said another voice.

"I know I did, Gizzel, dear. But if it isn't going, how can I give you a ride on it?"

U. S. to Dictate New Style Decrees

CHICAGO, Sept. 22.—Fall gowns occupied the attention of leading fashion experts of the country in attendance at the Fashion Art League convention here today.

Designers said the gowns this year are a vast improvement over those of other years. They said it would not be necessary to import French gowns hereafter as the American designers have proved they are just as original in creating new styles as the French.

WOMAN GETS 18 MONTHS.

STOCKTON, Sept. 22.—Mrs. Lottie Nelson, known as Helen Montgomery, has been sentenced to eighteen months in San Quentin for forgery. Mrs. Nelson was charged with having obtained \$300 from Mrs. Helen Bunch of this city by giving her a forged deed to San Francisco property. Mrs. Nelson pleaded guilty and asked for her sentence without delay.

Reply Book.**

READ CAREFULLY

IF YOU DO NOT HAVE THE CATALOG AND REPLY BOOK—
YOU MUST:

Sign your name and address on each coupon beneath each picture.

Also the title you have selected as best fitting the picture.

You must have a separate picture and coupon for each extra answer you make. For instance, if you make two answers to Picture No. 1 you must have two copies of Picture No. 1 with the coupons, and so on for all extra answers you make.

You must bind your pictures at the top, either by clamping, stitching, sewing, pasting, so that they will not become detached, loose or lost.

You must keep a duplicate set of your answers at home.

IF YOU HAVE A CATALOG AND REPLY BOOK

You will have the complete checking system, and will know how to check your own set of answers.

You only have to sign your name and address twice if you have the Catalog and Reply Book.

You don't have to buy extra pictures and coupons on which to make extra answers, as you can make five answers to each picture in the Reply Book.

You don't have to submit any pictures at all in the Reply Book. Just write down your selected titles in the proper spaces. On page 1 you write down your answers to Picture No. 1. On page 2 write down your answers to Picture No. 2 and so on for all thirty-five pictures.

You won't have to waste thru a mixed-up list of titles if you have the Catalog, as the Catalog is alphabetically arranged, and makes it very easy for you to find the best titles to the pictures.

CATALOG AND REPLY BOOK SAVES YOU TIME, MONEY AND LABOR. GET A CATALOG AND REPLY BOOK TODAY.

DO EVERYTHING YOU CAN TO WIN THAT FIRST PRIZE OF \$500 CASH.

Plenty of time for you to start today to play our Picturegame.

ORGANIZE NEW N. G. C. UNIT HERE

National Defense Act Makes Provision for Pay to Troopers.

Foundation was laid at a meeting held last night at National Guard headquarters in the Bacon Building, for the organization of a National Guard unit in addition to those already maintained here, to be known as Company B, First Infantry, National Guard Auxiliary of California.

More than forty young men of this city were in attendance and twenty-four of these signed an application for enlistment at last night's meeting. Another meeting of the temporary organization will be held at the State Armory on Twenty-fourth street, between Grove and Telegraph on Tuesday night, at which time the permanent organization will be perfected.

The following officers were elected: Chairman, L. B. Gross, ex-member of Battery B, First Battalion Field Artillery, National Guard; U. S. A. vice-chairman, S. W. Reynolds, former captain University of California Cadets; secretary, Howard W. Smith, member Washington State College Cadets and member of University of California Cadets; treasurer, Jack P. Degnan, graduate of Military Academy; executive committee, Hugh Fulton, E. H. Sherman, Stanley W. Cordy, Herbert Wolf, Jack P. Degnan, Howard Bartlett, L. W. Corning, H. B. Davis, S. W. Reynolds, Howard W. Smith and L. B. Gross.

The company is being organized through the efforts of Captain J. D. Smedberg, recruiting officer, who last week organized Company A at Eureka and who is organizing Companies C and D at San Francisco.

Under the provisions of the new National Defense Act, the men enlisted in this company will be entitled to pay for drill, ranging from \$4 to \$20 per month, according to rank and experience. Each man enlisted will be subject to a physical examination and for this purpose Dr. E. V. Tiffany, executive committee, Bacon Building, has been selected by the executive committee as examining physician. The company will be organized as an infantry unit, will devote considerable of its time to the study of aviation, engineering, radio work and other technical branches. This unit and other well known local aviator, will have charge of the aero squad, and Fred W. Johnston, University of California graduate, who for many years was assistant engineer for the Department of Public Works, will have charge of the engineering. As several well known bush league ball players, the company, the organization will no doubt put a strong team in the field in the near future.

Any young man between the age of 18 and 25, of good moral condition, who is desirous of joining the new company, may give his application to any member of the executive committee, or may leave the same at room 76, Bacon Building. Every applicant for admission to the company must be approved by the executive committee before enlistment.

Elks' Outing Is Planned for Sunday

Features that are interesting, novel and daring, and that have never been produced at a like affair, have been arranged for the outing to be given by the drill teams of Oakland No. 171 and Richmond No. 51, P. O. Elks, at East Shore Park in Richmond on Sunday. The most important feature of the day will be the giving away to some lucky person of a five-passenger motor car, with equal prize to the driver. On the grounds the day of the picnic awaiting its lucky claimant to drive it home.

The committee who has direct charge of the fête consists of the following: G. F. Donnelly, chairman; A. C. G. vice chairman; J. M. Stewart, W. D. Jenkins, C. Prouty, H. C. Hutchinson, F. Lutz, F. Downing, J. W. King, E. T. Talbot, R. A. Adams, J. Giger, J. R. Chollar, A. Locaste, L. L. Jordan.

Fresno Farmer Killed in Motorcycle Smash

FRESNO, Sept. 22.—H. C. Hastings, Fresno Springs farmer, died here last night from injuries received earlier in the evening when he was knocked from his motorcycle by an automobile in which were riding Rev. H. F. Phillips, Fresno, and Rev. H. Schmidt, Tulare, both Catholic priests. It is said that Hastings did not have the lights on the motorcycle burning.

INDIGESTION AND CONSTIPATION.—"I recently discovered in Chamberlain's Tablets the first medicine to give me lasting relief. Lacking this, I used to suffer frequently from indigestion and constipation," writes Mrs. Anna Kadin, Spencerport, N. Y. For sale by Osgood Bros. Drug Stores.—Advertisement.

PATIENT REGAINS HIS LOST MEMORY

Bernard Montgomery, Missing Man, Lives Four Years as a Day.

SAN FRANCISCO, Sept. 22.—Four years have passed as a day to Bernard J. Montgomery of Portland, whose peculiar case is puzzling physicians of the San Francisco Hospital, where he lies suffering from a severe attack of pneumonia.

Lying in his cot last night, the first gleams of returning memory came to the pneumonia victim. To him last Tuesday was March 3, 1912. In his mind he has but just left his wife and six children in their Portland home. Yet according to despatches from the north he now has but four children. Apparently while a pall hung over his mind, two children have died.

Montgomery's case is interesting not only from a medical but from a human standpoint. Only last week a skeleton taken from the Willamette river near Salem, Ore., was identified as that of Montgomery. His presence in San Francisco serves merely to deepen the mystery surrounding his movements since he disappeared a year ago from his Portland home. And not only are the events of the last year wiped from his mind, but those of the preceding three and a half years also.

"To me the day before yesterday was March 3, 1912, although you tell me more than a thousand days have passed since then," said Montgomery last night.

Montgomery answered all questions regarding his life previous to 1912 in a lucid manner. His wife and family, he said, lived at Twelfth and Burnside streets, Portland. His wife's mother, Mrs. Eleanor Boughner, he said, lived at Gresham, Ore.

On September 14 Montgomery was taken to the Central Emergency Hospital by a man giving the name of D. Deleah, who claimed to be a member of the Young Men's Institute. He left no address and is not known to the Y. M. C. A. Dr. L. W. Spriggs is in charge of Montgomery's case at the San Francisco Hospital. A superficial examination of the victim's head has revealed no injury which might cause aphasia, but Dr. William Macintosh of the hospital staff said last night an X-ray picture would be taken of the man's head.

Japanese Seeking Hawaii, Is Declared

SAN FRANCISCO, Sept. 22.—"The United States fortify; by and by we take."

That is the position and sentiments of the Japanese residents of Hawaii, according to S. D. McCray, marine engineer and electrician, who is back from a twelve year's stay in the islands.

"The Japanese there expect war between the countries within two years and are preparing for it," said McCray, who understands the Japanese language sufficiently to get at what the Japanese think.

"I am most familiar with conditions on the largest island, Hawaii," said McCray, "although everywhere the same conditions prevail. There are about 25,000 Japanese men on Hawaii, all of them former soldiers."

"Hawaii is Japanized. We might as well wake up and admit that the islands are not American—they are Japanese in everything except the government and the business of the very largest houses and banks. The laboring elements are of no value to the country, buying everything from Japan and living on rice and dried fish."

Mental Cruelty May Be McComas Charge

SAN FRANCISCO, Sept. 22.—Mental cruelty is said to be the ground on which Mrs. Marie Louise Parrott McComas expects to obtain a divorce from her artist husband, Francis J. McComas, according to friends of the complainant. Although Mrs. McComas and her immediate relatives are maintaining strict silence regarding the specific charges in the divorce complaint she filed at Salinas on Wednesday, society gossip, which predicted an open breach for years, is to the effect that McComas' devotion to his art has overcome his devotion to his wife.

The divorce action was placed on the secret file. The case will be heard within a week or so by Superior Judge Bardin of Monterey county.

Shipping Companies Establish Open Shop

SEATTLE, Wash., Sept. 22.—Mitsui and Company, and Frank Waterbury and Company, two of the largest shipping firms engaged in the trans-Pacific trade out of Seattle, have each been virtually the only big companies on the Seattle waterfront employing union longshoremen, having notified the International Longshoremen's Association that hereafter they would operate on an open shop basis with the rate of pay set at non-union wharves. Both companies signed the scale demanded by the longshoremen soon after the waterfront strike began June 1. At the time it was said the companies had enormous shipments of war supplies for Russia in their warehouses which had to be moved immediately regardless of cost. The congestion of freight has not yet been removed, and, according to auto experts, the champion woman driver in California. She has never had an accident.

WOMAN DRIVES TRUCK. CHICO, Sept. 22.—Piloting a heavy auto and trailer, both loaded with fenders with freight, Mrs. Fred Lucas makes regular trips from her home in Paradise to Chico and other places, where she disposes of her products. She has made a record for auto driving on mountain roads, and, according to auto experts, the champion woman driver in California. She has never had an accident.

HOW TO BE SLIM. If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be laughed at on account of your fat, but get a box of Dr. Kabin's, Broadway, San Pablo and Sixteenth street, or any good drug store, and get a box of Dr. Kabin's capsules, take one after each meal and one before retiring at night. Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body. It costs little, is absolutely harmless and a week's trial should convince anyone that it is unnecessary to be burdened with even a single pound of unsightly fat.
